### Shot Selection and Risk Management - \$25 Maximum 8 Students

Both experienced and inexperienced players often fail to evaluate their next shot based upon where they want to take their next shot. They just aim for the flag and hope for the best. This course covers essentials of shot making including club selection, target choices, and hazard avoidance. Distance and trajectory control will also be discussed in context of shot selection. Though not all students will immediately master their swings, they can develop a more keen sense of direction in their game beyond "toward the flag".

**Session 1: Coed**      **Thursday, May 17**      **6:00 p.m. to 7:00 p.m.**

**Session 2: Women Only**      **Tuesday, May 22**      **12:00 p.m. to 1:00 p.m.**

---

### Playing with a Plan: How to Manage the Course - \$25 Maximum 8 Students

Course management is often discussed by sportscasters, yet few players at the recreational level ever receive instruction on the topic. This Course Management session is dedicated to planning your round of golf, and playing with a strategy for 18 holes on a particular course. Students will learn the concept of playing to "their par" for the course. Shot planning will also be discussed, as will what to do if shots aren't executed as planned.

**Session 1: Coed**      **Thursday, May 24**      **6:00 p.m. to 7:00 p.m.**

**Session 2: Women Only**      **Tuesday, May 29**      **12:00 p.m. to 1:00 p.m.**

---

### Get Out of Trouble and Stay Out - \$35 Maximum 4 Students

From time to time every golfer finds themselves in a "not so good" position. Participants in this course will learn techniques and strategies to get out of the trees, deep rough and other undesirable lies.

**Session 1: Women Only**      **Thursday, May 31**      **6:00 p.m. to 7:00 p.m.**
