

## **Chapter 2.49**

### **DEPARTMENT OF WATER AND POWER**

#### **Sections:**

#### **2.49.010      Designated.**

#### **2.49.010      Designated.**

There is created a department of water and power which shall be under the direction of a director of water and power. It shall be the director's duty to organize, direct and manage the water, wastewater, stormwater, electric production, and electric distribution systems and plants of the city and the city's warehouse operations. The director shall be responsible for all matters relating to construction, management, maintenance, customer billing and operation of said systems and plants and shall perform such other functions as may be prescribed by the city manager. (Ord. 3975 § 10, 1994; Ord. 2072 § 2, 1982)
