The Loveland Museum/Gallery is thrilled to temporarily house a unique historic collection at The Sequel, just north of the main Museum building. Plans are in the works to include an exhibit and archive in the upcoming Museum expansion. In the meantime, a team of dedicated retired volunteer firemen have been busy collecting and cataloging antique artifacts, and preparing displays. Now open to the public during the weekends, the Loveland Fire Exhibit offers a glimpse into the history of our local fire department including information, photographs and objects related to the Bartholf Hose Cart Team, the Loveland Fire Sirens, the fire training grounds, the "Liar's Bench" and much, much more.
