Terracon Project No. 20177110

Dear Ms. Turner-Naranjo:

Terracon Consultants, Inc. (Terracon) is pleased to submit the enclosed Phase I Environmental Site Assessment (ESA) report for the above-referenced site. This assessment was performed in accordance with our Master Services Agreement dated June 19, 2017 and proposal dated September 11, 2017.

We appreciate the opportunity to be of service to you on this project. In addition to Phase I services, our professionals provide geotechnical, environmental, construction materials, and facilities services on a wide variety of projects locally, regionally and nationally. For more detailed information on all of Terracon's services please visit our website at www.terracon.com. If there are any questions regarding this report or if we may be of further assistance, please do not hesitate to contact us.

Sincerely,
Terracon Consultants, Inc.

EXECUTIVE SUMMARY

This Phase I Environmental Site Assessment (ESA) was performed in accordance with our Master Services Agreement dated June 19, 2017 and proposal dated September 11, 2017 and was conducted consistent with the procedures included in ASTM E1527-13, *Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process*. The ESA was conducted under the supervision or responsible charge of John C. Graves, P.G., Environmental Professional. Mr. Derek Brown and Mr. Craig Nelson performed the site reconnaissance on November 28, 2017.

Findings and Opinions

A summary of findings is provided below. It should be recognized that details were not included or fully developed in this section, and the report must be read in its entirety for a comprehensive understanding of the items contained herein.

Site Description and Use

The site is located at 205 East 6th Street in Loveland, Colorado and consists of a 0.32-acre tract developed with an approximately 28,000-square foot commercial structure and associated asphalt parking lot. The site currently operates as a county office building.

Historical Information

Between 1900 and 1906 the site was developed as a residential property. Beginning in 1911, the site was redeveloped as a library and office building through the present. In 1900, the site was surrounded by residential properties. By 1906, commercial structures and a church were constructed to the southwest and southeast and remain commercial through the present. Between 1927 and 1937, the properties to the south and west were redeveloped as commercial properties and remain commercial through the present. Between 1953 and 1969, the property to the west was redeveloped as a commercial property, which remains commercial through the present, and the property to the north was developed as a parking lot.

The former Van's Cleaners (544 North Cleveland Avenue) that operated between at least 1960 and 1965 located approximately 95 feet south of the site in a cross-to-down-gradient position relative to the site represents a Recognized Environmental Condition (REC).

Records Review

Selected federal and state environmental regulatory databases as well as responses from state and local regulatory agencies were reviewed. The site was not listed. Two Resource Conservation and Recovery and Conservation Act Categorically Exempt Small Quantity Generators (RCRA-CESQG) and ten RCRA Non-Generators (RCRA NON GEN) were located within 0.25 miles of the site. One Federal Brownfields site, 17 leaking underground storage tanks (LUSTS), and two Voluntary Cleanup and Redevelopment Program (VCP) sites were

located within 0.5 miles of the site. Three RCRA Corrective Action (RCRA-CORRACTS) sites were located within one mile of the site.

The facilities listed in the database report do not appear to represent RECs to the site based upon regulatory status, apparent topographic gradient, and/or distance from the site.

Site Reconnaissance

The following features were identified on-site, and while they do not represent a REC to the site, they are further discussion in Section 5.4 of this report: elevator, heating and cooling system, interior floor drains, pad-mounted transformer, and solid waste disposal dumpsters.

Adjoining Properties

The site is abutted to the east by Chase Bank (255 East 6th Street). The site is abutted to the west by the US Post Office (601 North Cleveland Avenue) and Loveland Liquor (639 North Cleveland Avenue). The site is abutted to the north by a parking lot. The site is abutted to the south by Richard Ball Law Offices (218 East 6th Street) and LOCO Artisan Coffee House (544 North Cleveland Avenue). The site is abutted to the east by Chase Bank (255 East 6th Street). The site is abutted to the southwest by a vacant building (565 North Cleveland Avenue).

Significant Data Gaps

No significant data gaps were identified.

Conclusions

We have performed a Phase I ESA consistent with the procedures included in ASTM Practice E 1527-13 at 205 E. 6th Street, Loveland, Larimer County, Colorado, the site. The former Van's Cleaners (544 North Cleveland Avenue) that operated between at least 1960 and 1965 located approximately 95 feet south of the site in a cross-to-down-gradient position relative to the site represents a REC due to the potential for vapor associated with impacted soil and groundwater from the facility to impact the site. Additional RECs, Historical RECs (HRECs) or Controlled RECs (CRECs) were not identified in connection with the site.

1.0 INTRODUCTION

1.1 Site Description

Site Name	Larimer County Courthouse
Site Location/Address	205 E. 6th Street, Loveland, Larimer County, Colorado
Land Area	Approximately 0.32 acres
Site Improvements	An approximately 28,000-square foot commercial structure and associated parking lot.
Anticipated Future Site Use	Remodel for commercial use
Purpose of the ESA	Selling the site

The location of the site is depicted on Exhibit 1 of Appendix A, which was reproduced from a portion of the USGS 7.5-minute series topographic map. The site and adjoining properties are depicted on the Site Diagram, which is included as Exhibit 2 of Appendix A. Acronyms and terms used in this report are described in Appendix F.

1.2 Scope of Services

This Phase I ESA was performed in accordance with our Master Services Agreement dated June 19, 2017 and proposal dated September 11, 2017 and was conducted consistent with the procedures included in ASTM E1527-13, *Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process*. The purpose of this ESA was to assist the client in developing information to identify RECs in connection with the site as reflected by the scope of this report. This purpose was undertaken through user-provided information, a regulatory database review, historical and physical records review, interviews, including local government inquiries, as applicable, and a visual noninvasive reconnaissance of the site and adjoining properties. Limitations, ASTM deviations, and significant data gaps (if identified) are noted in the applicable sections of the report.

ASTM E1527-13 contains a new definition of "migrate/migration," which refers to "the movement of hazardous substances or petroleum products in any form, including, for example, solid and liquid at the surface or subsurface, and vapor in the subsurface." By including this explicit reference to migration in ASTM E1527-13, the Standard clarifies that the potential for vapor migration should be addressed as part of a Phase I ESA. This Phase I ESA has considered vapor migration in evaluation of RECs associated with the site.

1.3 Standard of Care

This ESA was performed in accordance with generally accepted practices of this profession, undertaken in similar studies at the same time and in the same geographical area. We have

endeavored to meet this standard of care, but may be limited by conditions encountered during performance, a client-driven scope of work, or inability to review information not received by the report date. Where appropriate, these limitations are discussed in the text of the report, and an evaluation of their significance with respect to our findings has been conducted.

Phase I ESAs, such as the one performed at this site, are of limited scope, are noninvasive, and cannot eliminate the potential that hazardous, toxic, or petroleum substances are present or have been released at the site beyond what is identified by the limited scope of this ESA. In conducting the limited scope of services described herein, certain sources of information and public records were not reviewed. It should be recognized that environmental concerns may be documented in public records that were not reviewed. No ESA can wholly eliminate uncertainty regarding the potential for RECs in connection with a property. Performance of this practice is intended to reduce, but not eliminate, uncertainty regarding the potential for RECs. No warranties, express or implied, are intended or made. The limitations herein must be considered when the user of this report formulates opinions as to risks associated with the site or otherwise uses the report for any other purpose. These risks may be further evaluated – but not eliminated – through additional research or assessment. We will, upon request, advise you of additional research or assessment options that may be available and associated costs.

1.4 Additional Scope Limitations, ASTM Deviations and Data Gaps

Based upon the agreed-on scope of services, this ESA did not include subsurface or other invasive assessments, vapor intrusion assessments or indoor air quality assessments (i.e. evaluation of the presence of vapors within a building structure), business environmental risk evaluations, or other services not particularly identified and discussed herein. Credentials of the company (Statement of Qualifications) have not been included in this report but are available upon request. Pertinent documents are referred to in the text of this report, and a separate reference section has not been included. Reasonable attempts were made to obtain information within the scope and time constraints set forth by the client; however, in some instances, information requested is not, or was not, received by the issuance date of the report. Information obtained for this ESA was received from several sources that we believe to be reliable; nonetheless, the authenticity or reliability of these sources cannot and is not warranted hereunder.

An evaluation of the significance of limitations and missing information with respect to our findings has been conducted, and where appropriate, significant data gaps are identified and discussed in the text of the report. However, it should be recognized that an evaluation of significant data gaps is based on the information available at the time of report issuance, and an evaluation of information received after the report issuance date may result in an alteration of our conclusions, recommendations, or opinions. We have no obligation to provide information obtained or discovered by us after the issuance date of the report, or to perform any additional services, regardless of whether the information would affect any conclusions, recommendations,

or opinions in the report. This disclaimer specifically applies to any information that has not been provided by the client.

This report represents our service to you as of the report date and constitutes our final document; its text may not be altered after final issuance. Findings in this report are based upon the site's current utilization, information derived from the most recent reconnaissance and from other activities described herein; such information is subject to change. Certain indicators of the presence of hazardous substances or petroleum products may have been latent, inaccessible, unobservable, or not present during the most recent reconnaissance and may subsequently become observable (such as after site renovation or development). Further, these services are not to be construed as legal interpretation or advice.

1.5 Reliance

This ESA report is prepared for the exclusive use and reliance of City of Loveland. Use or reliance by any other party is prohibited without the written authorization of City of Loveland and Terracon Consultants, Inc. (Terracon).

Reliance on the ESA by the client and all authorized parties will be subject to the terms, conditions and limitations stated in the proposal, ESA report, and Terracon's Agreement. The limitation of liability defined in the Agreement is the aggregate limit of Terracon's liability to the client and all relying parties.

Continued viability of this report is subject to ASTM E1527-13 Sections 4.6 and 4.8. If the ESA will be used by a different user (third party) than the user for whom the ESA was originally prepared, the third party must also satisfy the user's responsibilities in Section 6 of ASTM E1527-13.

1.6 Client Provided Information

Prior to the site visit, Ms. Rachel Henderson, client's representative, was asked to provide the following user questionnaire information as described in ASTM E1527-13 Section 6.

Client Questionnaire Responses

Client Questionnaire Item	Client Did Not Respond	Client's Response	
		Yes	No
Specialized Knowledge or Experience that is material to a REC in connection with the site.			X
Actual Knowledge of Environmental Liens or Activity Use Limitations (AULs) that may encumber the site.			X
Actual Knowledge of a Lower Purchase Price because			X

Client Questionnaire Item	Client Did Not Respond	Client's Response	
		Yes	No
contamination is known or believed to be present at the site.			
Commonly Known or Reasonably Ascertainable Information that is material to a REC in connection with the site.			X
Obvious Indicators of Contamination at the site.			X

Terracon's consideration of the client provided information did not identify RECs. A copy of the questionnaire is included in Appendix C.

2.0 PHYSICAL SETTING

Physical Setting Information		Source
Topography		
Site Elevation	Approximately 4,990 feet above sea level	USGS Topographic Map, Loveland, Colorado Quadrangle, dated 1962, revised 1984
Topographic Gradient	Gently sloping towards the north-northwest	
Closest Surface Water	Little Barnes Ditch, approximately ½ mile to the north of the site.	
Soil Characteristics		
Soil Type	Fort Collins loam, 0 to 1 percent slopes	Larimer County, CO USDA-NRCS Web Soil Survey issued November 21, 2017
Description	Moderate infiltration rates when thoroughly wetted and consists chiefly of moderately deep to deep, moderately well to well drain soils with moderately fine to moderately coarse textures. These soils have a moderate rate of water transmission.	
Geology/Hydrogeology		
Formation	Loess (Holocene and upper Pleistocene)	Geologic Map of the Estes Park 30' x 60' Quadrangle, North-Central Colorado, 2009
Description	Pale-brown sandy to clayey silt deposited by wind. Unit chiefly confined to low-relief areas east of Front Range where it forms a thin blanketing deposit, mostly 3-10 feet thick. Locally may include minor deposits of middle Pleistocene age.	

Physical Setting Information		Source
Estimated Depth to First Occurrence of Groundwater	12 to 15 feet below ground surface (bgs).	USGS National Water Information System (https://waterdata.usgs.gov/nwis)
*Hydrogeologic Gradient	Not known - may be inferred to be parallel to topographic gradient (primarily to the north-northwest).	

* The groundwater flow direction and the depth to shallow, unconfined groundwater, if present, would likely vary depending upon seasonal variations in rainfall and other hydrogeological features. Without the benefit of on-site groundwater monitoring wells surveyed to a datum, groundwater depth and flow direction beneath the site cannot be directly ascertained.

3.0 HISTORICAL USE INFORMATION

Terracon reviewed the following historical sources to develop a history of the previous uses of the site and surrounding area, in order to help identify RECs associated with past uses. Copies of selected historical documents are included in Appendix C.

3.1 Historical Topographic Maps, Aerial Photographs, Sanborn Maps

Readily available historical USGS topographic maps, selected historical aerial photographs (at approximately 10 to 15 year intervals) and historical fire insurance maps produced by the Sanborn Map Company were reviewed to evaluate land development and obtain information concerning the history of development on and near the site. Reviewed historical topographic maps, aerial photographs and Sanborn maps are summarized below.

Historical fire insurance maps produced by the Sanborn Map Company were requested from ERIS to evaluate past uses and relevant characteristics of the site and surrounding properties. ERIS provided Sanborn maps as summarized below.

Historical Topographic Maps, Aerial Photographs and Sanborn Maps

Direction	Description
Site	A dwelling and stable (1900, 1906); the dwelling and stable are razed and a library is constructed (1911); similar in development (1918, 1927, 1937, 1941, 1946, 1948, 1953, 1961); the site is redeveloped with a new commercial structure (1969); similar in development (1978, 1988, 1999, 2011, 2013, 2015).
North	An alley followed by multiple dwellings (1900, 1906, 1911, 1918, 1927, 1937, 1941, 1946, 1948, 1953, 1961); dwellings are razed and a parking lot is constructed (1969, 1978, 1988, 1999, 2011, 2013, 2015).
East	A dwelling and stable (1900, 1906, 1911, 1918, 1927, 1937, 1941, 1946, 1948, 1953, 1961); the dwelling and stable are razed and a church is constructed (1969, 1978, 1988, 1999, 2011, 2013, 2015).
South	East 6 th Street followed by a dwelling and commercial structure (1900, 1906, 1911, 1918); the dwelling is raised and redeveloped with a commercial structure (1927); similar in development (1937, 1941, 1946, 1948, 1953, 1961, 1969, 1978, 1988, 1999, 2005, 2006, 2009, 2011); the original commercial structure is razed (2013); an additional commercial structure is constructed (2015).
West	North Cleveland Avenue followed by a dwelling (1900, 1906, 1911, 1918, 1927); dwelling is razed and the site is redeveloped with a commercial structure (1937, 1941, 1946, 1948, 1953, 1961, 1969, 1978, 1988, 1999, 2011, 2013, 2015).

3.2 Historical City Directories

The Cole, US West, Johnsons, Rocky Mountain Directory Co, and Polk's city directories used in this study were made available through ERIS (selected years reviewed: 1922-2016) and were reviewed at approximate five-year intervals, if readily available. Since these references are copyright protected, reproductions are not provided in this report. Street listings not available prior to 1922. The current street address for the site was identified as 205 E. 6th Street.

Van's Cleaners

Van's Cleaners (544 North Cleveland Avenue) was located approximately 95 feet south of the site in a cross-to-down-gradient topographic position between at least 1960 and 1965. Dry cleaners historically used chlorinated solvents such as tetrachloroethylene. Based on distance of the facility relative to the site and the possible presence of chlorinated solvents in subsurface soil and groundwater, Van's Cleaners represents a REC to the site.

3.3 Site Ownership

Based on a review of information obtained from the Larimer County assessor's records (<https://www.larimer.org/assessor>), the current site owner is the County of Larimer. Previous owners were not identified.

3.4 Title Search

The client provided Terracon with a Title Commitment prepared by Land Title Guarantee Company. Based on a review of the title provider's research, the current site owner is Larimer County. A copy of the provided title commitment is included in Appendix C of this report.

3.5 Environmental Liens and Activity and Use Limitations

The ERIS regulatory database report included a review of both Federal and State Engineering Control (EC) and Institutional Control (IC) databases. Based on a review of the database report, the site was not listed on the EC or IC databases. Please note that in addition to these federal and state listings, AULs can be recorded at the county and municipal level that may not be listed in the regulatory database report. Environmental lien and activity and use limitation records recorded against the site were not provided by the client and were not listed in Schedule B of the Title Commitment provided by the client. A review of title records was not included as part of the scope of services and unless notified otherwise, we assume that the client is evaluating this information outside the scope of this report.

3.6 Interviews Regarding Current and Historical Site Uses

The following individuals were interviewed regarding the current and historical use of the site.

Interviews

Interviewer	Name / Phone #	Title	Date/Time
Mr. Craig Nelson	Mr. Walker Damge	Larimer County Facilities Representative	November 28, 2017

Terracon interviewed Mr. Walker Damge, Team Lead, during the site reconnaissance. Mr. Damge indicated that he has been familiar with the site for 15 years. He indicated that the site has been historically used as a courthouse and public library. He was not aware of any spills or leaks of any chemicals or petroleum products. He stated he was not aware of drums with chemicals or petroleum products stored on-site. In addition, he was not aware of aboveground storage tanks (ASTs) or underground storage tanks (USTs) being associated with the site. Mr. Damge indicated he has not observed any signs of spills of chemicals or petroleum products on-site.

Mr. Damge was not aware of any pending environmental litigation, threatened environmental litigation, past environmental litigation, notices of possible violations of environmental law, notices of possible liability, or notices of potential environmental concerns in connection with the site.

3.7 Prior Report Review

Terracon requested the client provide any previous environmental reports they are aware of for the site. Previous reports were not provided by the client to Terracon for review.

4.0 RECORDS REVIEW

Regulatory database information was provided by ERIS, a contract information services company. The purpose of the records review was to identify RECs in connection with the site. Information in this section is subject to the accuracy of the data provided by the information services company and the date at which the information is updated. The scope herein did not include confirmation of facilities listed as "unmappable" by regulatory databases.

In some of the following subsections, the words up-gradient, cross-gradient and down-gradient refer to the topographic gradient in relation to the site. As stated previously, the groundwater flow direction and the depth to shallow groundwater, if present, would likely vary depending upon seasonal variations in rainfall and the depth to the soil/bedrock interface. Without the

benefit of on-site groundwater monitoring wells surveyed to a datum, groundwater depth and flow direction beneath the site cannot be directly ascertained.

4.1 Federal and State/Tribal Databases

Listed below are the facility listings identified on federal and state/tribal databases within the ASTM-required search distances from the approximate site boundaries. Database definition, descriptions, and the database search report are included in Appendix D.

Federal Databases

Database	Description	Distance (miles)	Listings
CERC	Comprehensive Environmental Response, Compensation and Liability Information System - CERCLIS	0.5	0
CERL	CERCLIS Liens	Site	0
CNFR	CERCLIS - No Further Remedial Action Planned	0.5	0
EC	Federal Engineering Controls-ECs	0.5	0
ERN1	Emergency Response Notification System	Site	0
ERN2	Emergency Response Notification System	Site	0
ERNS	Emergency Response Notification System	Site	0
FBFL	The Assessment, Cleanup and Redevelopment Exchange System (ACRES) Brownfield Database	0.5	1
FRS	Facility Registry Service/Facility Index	Site	0
HMIR	Hazardous Materials Information Reporting System	0.10	0
HTSC	Hist TSCA	0.10	0
IC	Federal Institutional Controls- ICs	0.5	0
IODI	EPA Report on the Status of Open Dumps on Indian Lands	0.5	0
NCDL	National Clandestine Drug Labs	Site	0
NPL	National Priority List	1	0
NPLD	Delisted NPL	0.5	0
NPLP	National Priority List - Proposed	1	0
ODI	Inventory of Open Dumps, June 1985	0.5	0
RCOR	RCRA CORRACTS- Corrective Action	1	3
RGEN	RCRA Generator List	0.25	2
RNGN	RCRA Non-Generators	0.25	10
RTSD	RCRA non-CORRACTS TSD Facilities	0.5	0
TRI	Toxics Release Inventory (TRI) Program	Site	0
TSCA	Toxic Substances Control Act	0.10	0

State/Tribal Databases

Database	Description	Distance (miles)	Listings
AST	Aboveground Storage Tanks	0.25	0
AUL	Environmental Covenants and Environmental Use Restrictions List	0.5	0
HSWL	Historical Solid Waste (Closed or Abandoned Landfills)	0.5	0
ILST	Leaking Underground Storage Tanks (LUSTs) on Indian Lands	0.5	0
IUST	Underground Storage Tanks (USTs) on Indian Lands	0.25	0
LAST	Leaking Aboveground Storage Tanks	0.5	0
LSTT	LUST Trust Sites	0.5	0
LUST	Leaking Underground Storage Tanks	0.5	17
SPL	Spills	0.10	0
SWF	Solid Waste Facilities and Landfills	0.5	0
TANK	Storage Tank Information System (COSTIS)	0.25	0
UST	Underground Storage Tanks	0.25	0
VCP	The Voluntary Cleanup and Redevelopment Program	0.5	2

In addition to the above ASTM-required listings, Terracon reviewed other federal, state, local, and proprietary databases provided by the database firm. A list of the additional reviewed databases is included in the regulatory database report included in Appendix D.

The following table summarizes the site-specific information provided by the database and/or gathered by this office for identified facilities. Facilities are listed in order of proximity to the site. Additional discussion for selected facilities follows the summary table.

Listed Facilities

Facility Name and Location	Estimated Distance / Direction/Gradient	Database Listings	Is a REC, CREC, or HREC to the Site
Chevron 701 N Lincoln Ave	Approximately 400 feet / northeast / cross-gradient	LUST	No, based on distance and topographic gradient
Bank One 702 N Lincoln	Approximately 400 feet / northeast / cross-gradient	LUST	No, based on distance and topographic gradient
Van's Cleaners 702 N Lincoln	Approximately 400 feet northeast / cross-gradient	RCRA CESQG	No, based on distance and topographic gradient
Loveland Central Office 335 E 6th Ave	Approximately 500 feet / east-southeast / down-gradient	LUST	No, based on distance and topographic gradient

Facility Name and Location	Estimated Distance / Direction/Gradient	Database Listings	Is a REC, CREC, or HREC to the Site
U.S. West Communications 335 E 6Th St	Approximately 500 feet / east-southeast / down-gradient	RCRA NON GEN	No, based on distance and topographic gradient
Mike's Downtown Texaco 502 N Lincoln Ave	Approximately 500 feet / south-southeast / down-gradient	LUST	No, based on distance and topographic gradient
Rex Oil 107 W 7th St	Approximately 600 feet / west-northwest / up-gradient	LUST	No, based on file review discussed below
Comlinear Inc 514 Railroad Ave	Approximately 600 feet / southwest / cross-gradient	RCRA NON GEN	No, based on distance and topographic gradient
Loveland Radiator 123 E 5th Ave	Approximately 600 feet / south-southwest / down-gradient	RCRA NON GEN	No, based on distance and topographic gradient
Public Service, Loveland Service Center 428 Cleveland Ave	Approximately 600 feet / south / down-gradient	RCRA NON GEN	No, based on distance and topographic gradient
City Of Loveland South Tank B 5th & Railroad	Approximately 700 feet / southwest / cross-gradient	LUST	No, based on distance and topographic gradient
Cdot Loveland 127 E 8th St	Approximately 700 feet / north-northwest / up-gradient	LUST	No, based on distance
Cenex Express 805 N Lincoln Ave	Approximately 700 feet / north-northeast / cross-gradient	LUST	No, based on distance and topographic gradient
Colorado Dept Of Transportation 127 E 8th St	Approximately 700 feet / north-northwest / up-gradient	RCRA NON GEN	No, based on distance
City Of Loveland Solid Waste Div 105 W 5th St	Approximately 800 feet / southwest / cross-gradient	LUST	No, based on distance and topographic gradient
Loveland City Shops 105 W 5th St	Approximately 800 feet / southwest / cross-gradient	LUST	No, based on distance and topographic gradient
Hach Technical Training Center 209 E 4th St	Approximately 900 feet / south / down-gradient	RCRA NON GEN	No, based on distance and topographic gradient
Safeway Store #2915 860 Cleveland Ave	Approximately 900 feet / north / up-gradient	RCRA CESQG	No, based on distance
Public Safety Building 410 E 5th St	Approximately 900 feet / east-southeast / down-gradient	LUST	No, based on distance and topographic gradient

Facility Name and Location	Estimated Distance / Direction/Gradient	Database Listings	Is a REC, CREC, or HREC to the Site
Lundeen Studios 356 E 4th St	Approximately 1,000 feet / south-southeast / down-gradient	RCRA NON GEN	No, based on distance and topographic gradient
320 N Lincoln Ave 320 N Lincoln Ave	Approximately 1,200 feet / south-southeast / down-gradient	LUST	No, based on distance and topographic gradient
Loveland City Dairy 437 Garfield	Approximately 1,200 feet / west-southwest / cross-gradient	LUST	No, based on distance and topographic gradient
The John Ownby Exemption Trust Building 300 N Lincoln Ave	Approximately 1,300 feet / south-southeast / down-gradient	LUST	No, based on distance and topographic gradient
Mcgraw Tire Co 216 E 3rd St	Approximately 1,300 feet / south / down-gradient	LUST	No, based on distance and topographic gradient
Johnson Printing 102 W 4Th St	Approximately 1,300 feet / southwest / cross-gradient	RCRA NON GEN	No, based on distance and topographic gradient
Leslie Dry Cleaners 301 N. Lincoln Ave.	Approximately 1,300 feet / south-southeast / down-gradient	FED BROWNFIELDS, VCP, RCRA NON GEN, LUST	No, based on distance and topographic gradient
Garfield Conoco 400 N Garfield Ave	Approximately 1,300 feet / southwest / cross-gradient	LUST	No, based on distance and topographic gradient
Van's Cleaners 136 W 4th St	Approximately 1,300 feet / southwest / cross-gradient	RCRA NON GEN	No, based on distance and topographic gradient
Leslie the Cleaners - Off-Site 233 N. Lincoln Ave.	Approximately 1,400 feet / south / down-gradient	VCP	No, based on distance and topographic gradient
Itt Industries 302 3rd St Se	Approximately 3,000 feet / south-southeast / down-gradient	RCRA CORRACTS	No, based on distance and topographic gradient
Omni Trax 950 Taylor Ave	Approximately 3,600 feet / east-northeast / cross-gradient	RCRA CORRACTS	No, based on distance and topographic gradient
Art Castings of Colorado 511 8th St Se	Approximately 4,600 feet / south-southeast / down-gradient	RCRA CORRACTS	No, based on distance and topographic gradient

Rex Oil

Rex Oil located at 107 West 7th Street was identified on the Leaking Underground Storage Tank (LUST) database. There are multiple LUST listings for the facility; however, the facilities have

received closure by the state regulatory agencies. Based on distance and regulatory status, the Rex Oil facility does not constitute a REC.

The remaining facilities listed in the database report do not appear to represent RECs to the site at this time based upon regulatory status, apparent topographic gradient, and/or distance from the site.

Unmapped facilities are those that do not contain sufficient address or location information to evaluate the facility listing locations relative to the site. The report listed five facilities in the unmapped section. Determining the location of unmapped facilities is beyond the scope of this assessment; however, none of these facilities were identified as the site or adjacent properties. These facilities are listed in the database report in Appendix D.

4.2 Local Agency Inquiries

Agency Contacted/ Contact Method	Response
Colorado Department of Public Health and Environment / by email	According to Ms. Pearl Campos of the Colorado Department of Public Health and Environment, there are no environmental records associated with the site.
Loveland Fire Rescue Authority / by email	According to Mr. Dan Engelhardt of the Loveland Fire Rescue Authority, there are no records of responses to the site.

5.0 SITE RECONNAISSANCE

5.1 General Site Information

Information contained in this section is based on a visual reconnaissance conducted while walking through the site and the accessible interior areas of structures, if any, located on the site. The site and adjoining properties are depicted on the Site Diagram, which is included in Exhibit 2 of Appendix A. Photo documentation of the site at the time of the visual reconnaissance is provided in Appendix B. Credentials of the individuals planning and conducting the site visit are included in Appendix E.

General Site Information

Site Reconnaissance				
Field Personnel	Mr. Derek Brown / Mr. Craig Nelson			
Reconnaissance Date	November 28, 2017			
Weather Conditions	Overcast / 45° F			
Site Contact/Title	Mr. Walker Damage / Team Leader			
Building Description				
Building Identification	Building Use	Approx. Construction Date	Number of Stories	Approx. Size (ft²)
Main Building	Office Space	1967	2	28,000
Site Utilities				
Drinking Water	City of Loveland			
Wastewater	City of Loveland			
Electric	City of Loveland			
Natural Gas	Xcel Energy			

5.2 Overview of Current Site Occupants

The site is located at 205 East 6th Street in Loveland, Colorado and consists of a 0.32-acre tract developed with an approximately 28,000-square foot commercial structure and associated asphalt parking lot.

5.3 Overview of Current Site Operations

The site currently operates as a county office building.

5.4 Site Observations

The following table summarizes site observations and interviews. Affirmative responses (designated by an "X") are discussed in more detail following the table.

Site Characteristics

Category	Item or Feature	Observed or Identified
Site Operations, Processes, and Equipment	Emergency generators	
	Elevators	X
	Air compressors	X
	Hydraulic lifts	

Category	Item or Feature	Observed or Identified
	Dry cleaning	
	Photo processing	
	Ventilation hoods and/or incinerators	
	Waste treatment systems and/or water treatment systems	
	Heating and/or cooling systems	X
	Paint booths	
	Sub-grade mechanic pits	
	Wash-down areas or carwashes	
	Pesticide/herbicide production or storage	
	Printing operations	
	Metal finishing (e.g., electroplating, chrome plating, galvanizing, etc.)	
	Salvage operations	
	Oil, gas or mineral production	
	Other processes or equipment	
Aboveground Chemical or Waste Storage	Aboveground storage tanks	
	Drums, barrels and/or containers ³ 5 gallons	
	MSDS or SDS	
Underground Chemical or Waste Storage, Drainage or Collection Systems	Underground storage tanks or ancillary UST equipment	
	Sumps, cisterns, French drains, catch basins and/or dry wells	
	Grease traps	
	Septic tanks and/or leach fields	
	Oil/water separators, clarifiers, sand traps, triple traps, interceptors	
	Pipeline markers	
	Interior floor drains	X
Electrical Transformers/PCBs	Transformers and/or capacitors	X
	Other equipment	

Category	Item or Feature	Observed or Identified
Releases or Potential Releases	Stressed vegetation	
	Stained soil	
	Stained pavement or similar surface	
	Leachate and/or waste seeps	
	Trash, debris and/or other waste materials	X
	Dumping or disposal areas	
	Construction/demolition debris and/or dumped fill dirt	
	Surface water discoloration, odor, sheen, and/or free floating product	
	Strong, pungent or noxious odors	
	Exterior pipe discharges and/or other effluent discharges	
Other Notable Site Features	Surface water bodies	
	Quarries or pits	
	Wastewater lagoons	
	Wells	

Site Operations, Processes, and Equipment

Elevators

One hydraulic elevator control system was observed during the site reconnaissance. The control system was observed in the maintenance room. The hydraulic fluid reservoir is above ground. Spills, staining or releases spills, stains or releases were not observed in the vicinity of the reservoirs during the site reconnaissance. ThyssenKrupp Elevator conducts the maintenance control program. Based on the lack of observed staining and the above ground nature of the hydraulic reservoir, the elevator does not represent a REC at this time.

Heating and/or cooling systems

The facility is heated by a boiler and cooled by a roof-mounted air-conditioning unit. The heating and cooling systems are intended for comfort heating and cooling and not process heating or cooling.

Air Compressors

One air compressor was observed during the site reconnaissance in the mechanical room. Staining was not observed and is therefore not considered a REC.

Underground Chemical or Waste Storage, Drainage or Collection Systems

Interior floor drains

Interior floor drains were observed in the basement and bathrooms during the site reconnaissance. According to Mr. Damge, the floor drains discharge to a sanitary sewer. Potentially hazardous materials and/or petroleum products were not stored in the vicinity of the floor drains at the time of the site reconnaissance. Staining and/or releases to the floor drains were not observed during the site reconnaissance.

Electrical Transformers/PCBs

Transformers and/or capacitors

During Terracon's site visit, one pad-mounted transformer, owned and serviced by the City of Loveland, was observed on the northeastern exterior of the on-site building; however, no information with regard to PCB content of the transformer fluids was observed. Some transformers contain mineral oil which may contain PCBs.

The City of Loveland maintains responsibility for the transformers, and if the transformers were "PCB contaminated," the City of Loveland is not required to replace the transformer fluids until a release is identified. However, evidence of current or prior releases was not observed in the vicinity of the electrical equipment during the site reconnaissance.

Releases or Potential Releases

Trash, debris and/or other waste materials

Six solid waste disposal dumpsters, serviced by Gallegos Sanitation and Waste Management, were observed on the northeastern exterior of the on-site building. Staining, noxious odors, or hazardous waste disposal was not observed in the vicinity of the solid waste disposal dumpsters. Therefore, the solid waste disposal dumpsters do not represent a REC at this time.

6.0 ADJOINING PROPERTY RECONNAISSANCE

Visual observations of adjoining properties (from site boundaries) are summarized below.

Adjoining Properties

Direction	Description
North	Parking lot
East	255 East 6th Street: Chase Bank
South	218 East 6th Street: Richard Ball Law Office 544 North Cleveland Avenue: LOCO Artisan Coffee House
Southwest	565 North Cleveland Avenue: Vacant, currently under development as a church

Direction	Description
West	601 North Cleveland Avenue: US Post Office
Northwest	639 North Cleveland Avenue: Loveland Liquor

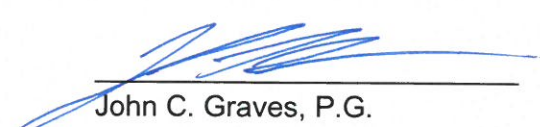

RECs were not observed associated with the adjoining properties.

7.0 ADDITIONAL SERVICES

Per the agreed scope of services specified in the proposal, additional services (e.g. asbestos sampling, lead-based paint sampling, wetlands evaluation, lead in drinking water testing, radon testing, vapor encroachment screening, etc.) were not conducted.

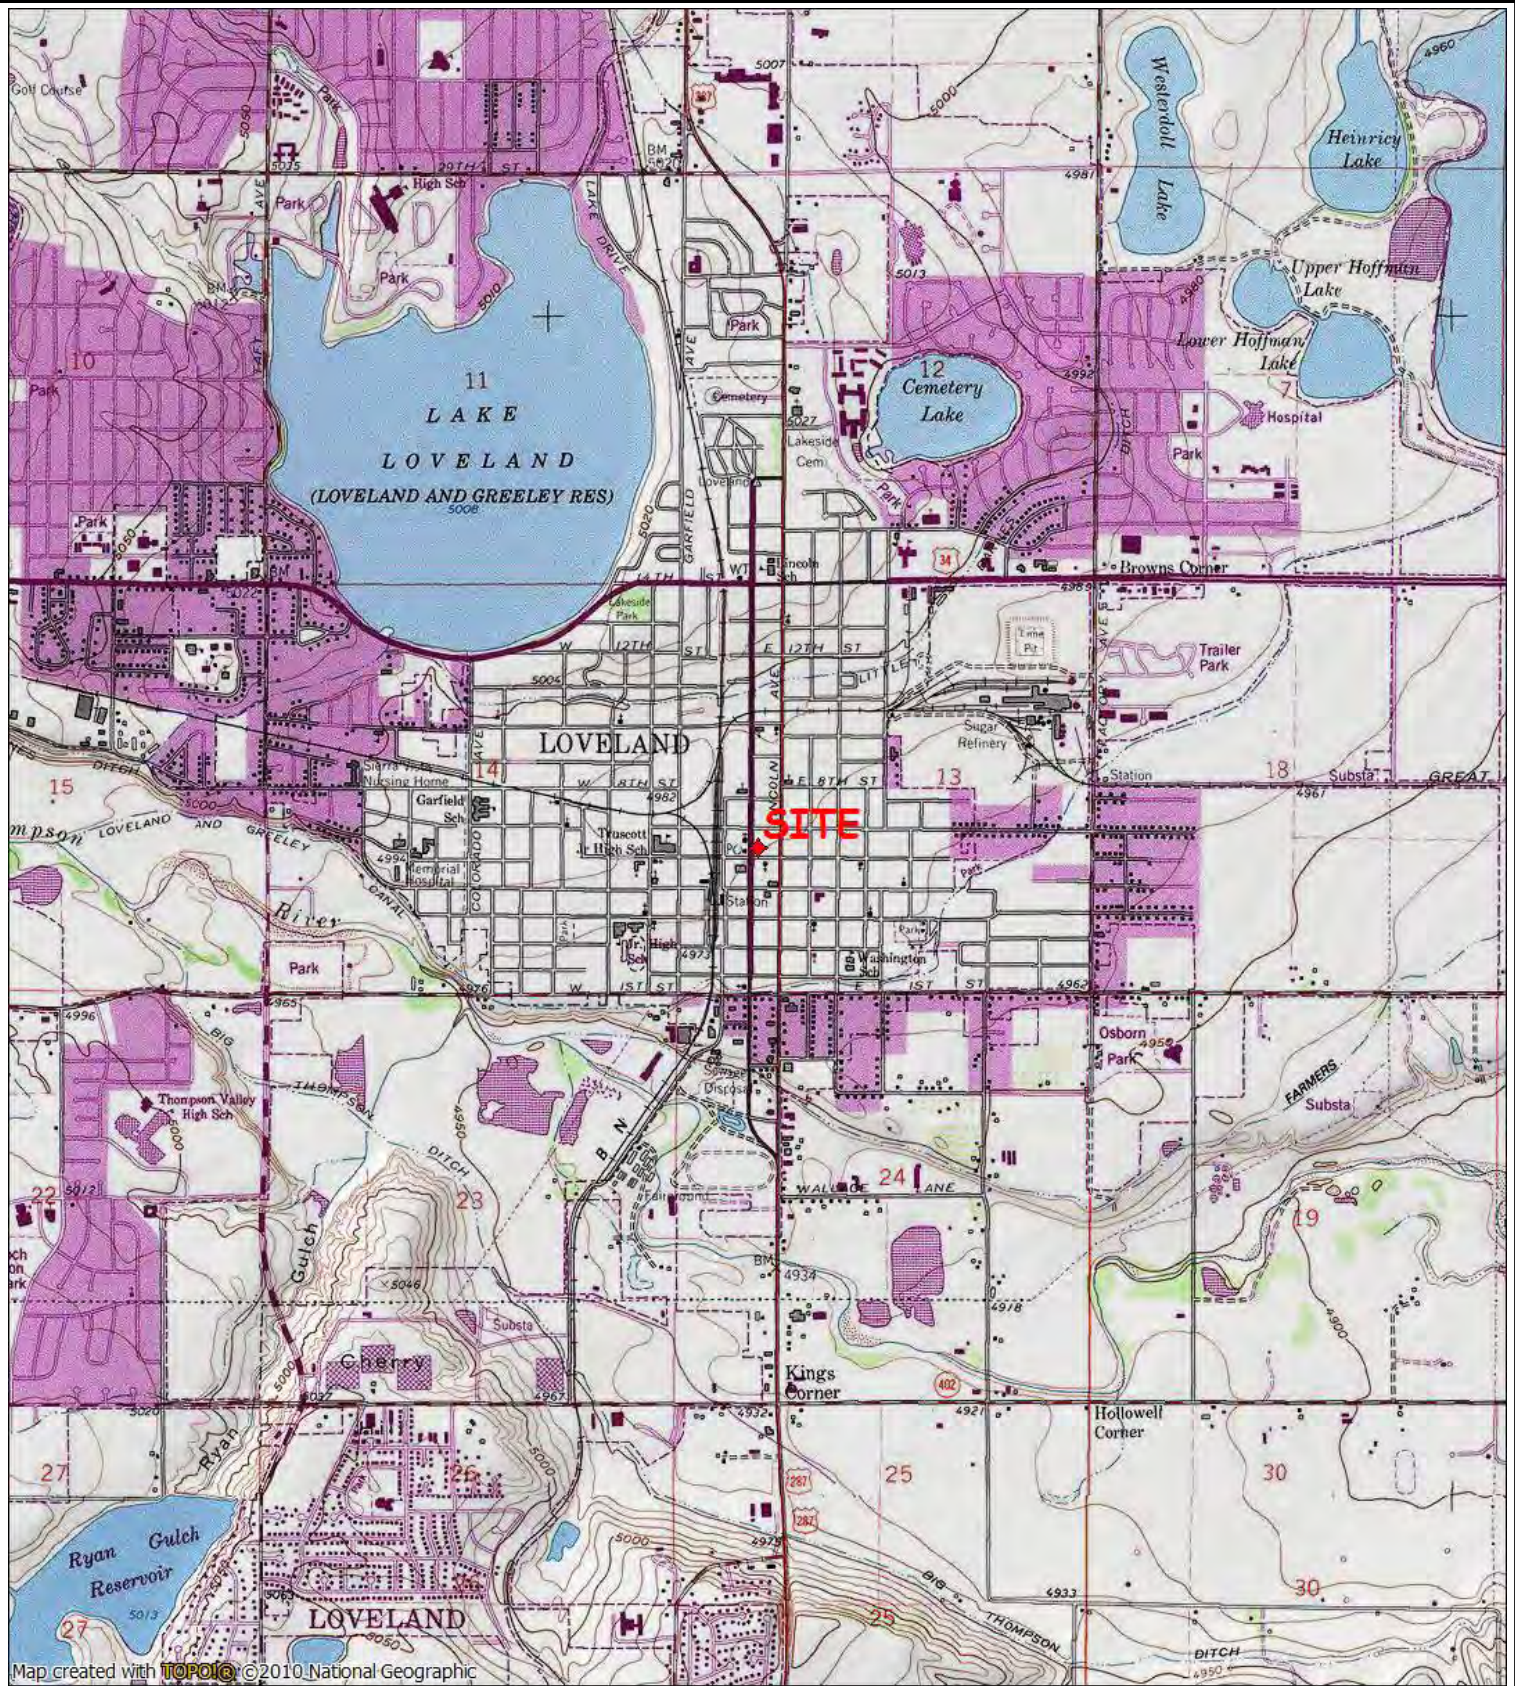

8.0 DECLARATION

I, John C. Graves, P.G., declare that, to the best of my professional knowledge and belief, I meet the definition of Environmental Professional as defined in Section 312.10 of 40 CFR 312; and I have the specific qualifications based on education, training, and experience to assess a property of the nature, history, and setting of the site. I have developed and performed the All Appropriate Inquiries in conformance with the standards and practices set forth in 40 CFR Part 312.

John C. Graves, P.G.
Senior Principal/Regional Manager

APPENDIX C
HISTORICAL DOCUMENTATION AND USER QUESTIONNAIRE

Client/User Required Questionnaire

Terracon

Person Completing Questionnaire	<i>Rachel Henderson for</i> Name: <i>Michael Hagen</i> Phone: <i>970/962-2365</i> Company: <i>city of Loveland</i> Email: <i>rachel.henderson@cityofloveland.co</i>	
Site Name	<i>Larimer County Courthouse</i>	
Site Address	<i>205 E. 6th Street, Loveland, CO</i>	
Point of Contact for Access	Name: <i>Ken Cooper</i> Phone: <i>970/775-3782</i> Company: <i>Larimer County</i> Email: <i>Ken.cooper@larimer.org</i>	
Access Restrictions or Special Site Requirements?	<input checked="" type="checkbox"/> No <input type="checkbox"/> Yes (If yes, please explain)	
Confidentiality Requirements?	<input checked="" type="checkbox"/> No <input type="checkbox"/> Yes (If yes, please explain)	
Current Site Owner	Name: <i>Larimer County</i> Phone: Company: <i>see above</i> Email:	
Current Site Operator	Name: <i>Larimer County</i> Phone: Company: <i>see above</i> Email:	
Reasons for ESA (e.g., financing, acquisition, lease, etc.)	<i>acquisition</i>	
Anticipated Future Site Use	<i>office space</i>	
Relevant Documents?	Please provide Terracon copies of prior Phase I or II ESAs, Asbestos Surveys, Environmental Permits or Audit documents, Underground Storage Tank documents, Geotechnical Investigations, Site Surveys, Diagrams or Maps, or other relevant reports or documents.	
ASTM User Questionnaire In order to qualify for one of the Landowner Liability Protections (LLPs) offered by the Small Business Relief and Brownfields Revitalization Act of 2001 (the "Brownfields Amendments"), the user must respond to the following questions. Failure to provide this information to the environmental professional may result in significant data gaps, which may limit our ability to identify recognized environmental conditions resulting in a determination that "all appropriate inquiry" is not complete. This form represents a type of interview and as such, the user has an obligation to answer all questions in good faith, to the extent of their actual knowledge.		
1) Did a search of recorded land title records (or judicial records where appropriate) identify any environmental liens filed or recorded against the property under federal, tribal, state, or local law (40 CFR 312.25)? <input checked="" type="checkbox"/> No <input type="checkbox"/> Yes <input type="checkbox"/> Title search not completed (If yes, explain below and send Terracon a copy of the Chain of Title report.)		
2) Did a search of recorded land title records (or judicial records where appropriate) identify any activity and use limitations (AULs), such as engineering controls, land use restrictions, or institutional controls that are in place at the property and/or have been filed or recorded against the property under federal, tribal, state, or local law (40 CFR 312.26)? <input checked="" type="checkbox"/> No <input type="checkbox"/> Yes <input type="checkbox"/> Title search not completed (If yes, explain below and send Terracon a copy of the Chain of Title report.)		
3) Do you have any specialized knowledge or experience related to the site or nearby properties? For example, are you involved in the same line of business as the current or former occupants of the site or an adjoining property so that you would have specialized knowledge of the chemicals and processes used by this type of business (40 CFR 312-28)? <input checked="" type="checkbox"/> No <input type="checkbox"/> Yes (If yes, explain below)		
4) Do you have actual knowledge of a lower purchase price because contamination is known or believed to be present at the site (40 CFR 312.29)? <input checked="" type="checkbox"/> No <input type="checkbox"/> Yes <input type="checkbox"/> Not applicable (If yes, explain below)		
5) Are you aware of commonly known or reasonably ascertainable information about the site that would help the environmental professional to identify conditions indicative of releases or threatened releases (40 CFR 312.30)? <input checked="" type="checkbox"/> No <input type="checkbox"/> Yes (If yes, explain below)		
6) Based on your knowledge and experience related to the site, are there any obvious indicators that point to the presence or likely presence of contamination at the site (40 CFR 312.31)? <input checked="" type="checkbox"/> No <input type="checkbox"/> Yes (If yes, explain below)		
Comments or explanations:		

Please return this form with the signed authorization to proceed.

Sales Information

Click a Sale Date to recorded document details, or Reception No. to view the document.

Sale Date	Reception No.	Sale Price	Deed Type
1987-06-01	L 87031758	\$0	Warranty Deed

Value Information

Abstract Code/Description		Value Type	Actual Value	Assessed Value	Net Acres	Net Sq Ft
9131	Cnty admin land	Land	\$98,000	\$28,420	.32	14,000
9231	Cnty admin imp	Improvement	\$1,619,000	\$469,510	.00	0
Totals:			\$1,717,000	\$497,930	0.32	14,000

i

The following calculation is used to determine your property tax:

$$\text{Actual Value} \times \text{Assessment Rate} \times \text{Mill Levy} / 1000 = \text{Property Tax}$$

Based on the property information shown above and using the 2016 Mill Levy for this account, the estimated 2017 tax liability would be \$0.00.

ALTA COMMITMENT
Old Republic National Title Insurance Company
Schedule B, Part I
(Requirements)

Order Number: FCC25154161

All of the following Requirements must be met:

This proposed Insured must notify the Company in writing of the name of any party not referred to in this Commitment who will obtain an interest in the Land or who will make a loan on the Land. The Company may then make additional Requirements or Exceptions.

Pay the agreed amount for the estate or interest to be insured.

Pay the premiums, fees, and charges for the Policy to the Company.

Documents satisfactory to the Company that convey the Title or create the Mortgage to be insured, or both, must be properly authorized, executed, delivered, and recorded in the Public Records.

1. WARRANTY DEED FROM COUNTY OF LARIMER, AKA LARIMER COUNTY, COLORADO TO LOVELAND URBAN RENEWAL AUTHORITY CONVEYING SUBJECT PROPERTY.
2. CERTIFIED COPY OF RESOLUTION OF THE GOVERNING BOARD OF THE COUNTY OF LARIMER, AKA LARIMER COUNTY, COLORADO (AUTHORIZING THE SALE OF THE SUBJECT PROPERTY AND THE EXECUTION OF NECESSARY DOCUMENTS) AND RECITING THAT THE BOARD HAS BEEN DULY AUTHORIZED IN THE PREMISES BY THE CORPORATION. SAID RESOLUTION MUST BE PROPERLY CERTIFIED BY AN OFFICER OF THE CORPORATION. SAID RESOLUTION MUST BE SUBMITTED TO AND APPROVED BY LAND TITLE GUARANTEE COMPANY BUT NEED NOT BE RECORDED.
3. PROVIDE LAND TITLE GUARANTEE COMPANY WITH A CURRENT IMPROVEMENT SURVEY PLAT OR AN ALTA SURVEY OF SUBJECT PROPERTY. UPON REVIEW, ADDITIONAL REQUIREMENTS AND/OR EXCEPTIONS MAY BE NECESSARY.

LAND TITLE IS NOT RESPONSIBLE FOR ORDERING SAID IMPROVEMENT SURVEY PLAT OR AN ALTA SURVEY.

SAID SURVEY MUST BE CERTIFIED TO LAND TITLE GUARANTEE COMPANY AND OLD REPUBLIC NATIONAL TITLE INSURANCE COMPANY.

ALTA COMMITMENT
Old Republic National Title Insurance Company
Schedule B, Part I
(Requirements)

Order Number: FCC25154161

All of the following Requirements must be met:

NOTE: ITEMS 1-3 OF THE STANDARD EXCEPTIONS WILL BE DELETED UPON RECEIPT OF AN APPROVED SURVEY. MATTERS DISCLOSED BY SAID SURVEY MAY BE ADDED TO SCHEDULE B-2 HEREOF.

UPON THE APPROVAL OF THE COMPANY AND THE RECEIPT OF A NOTARIZED FINAL LIEN AFFIDAVIT, ITEM NO. 4 OF THE STANDARD EXCEPTIONS ON THE OWNER'S POLICY, WILL BE AMENDED AS FOLLOWS:

ITEM NO. 4 OF THE STANDARD EXCEPTIONS IS DELETED AS TO ANY LIENS OR FUTURE LIENS RESULTING FROM WORK OR MATERIAL FURNISHED AT THE SPECIFIC, DIRECT REQUEST, AND WITH THE ACTUAL KNOWLEDGE OF COUNTY OF LARIMER, AKA LARIMER COUNTY, COLORADO. OLD REPUBLIC NATIONAL TITLE INSURANCE COMPANY SHALL HAVE NO LIABILITY FOR ANY LIENS ARISING FROM WORK OR MATERIAL FURNISHED AT THE SPECIFIC, DIRECT REQUEST, AND WITH THE ACTUAL KNOWLEDGE OF LOVELAND URBAN RENEWAL AUTHORITY.

NOTE: ITEM 5 OF THE STANDARD EXCEPTIONS WILL BE DELETED IF LAND TITLE GUARANTEE COMPANY CONDUCTS THE CLOSING OF THE CONTEMPLATED TRANSACTION(S) AND RECORDS THE DOCUMENTS IN CONNECTION THEREWITH.

NOTE: UPON PROOF OF PAYMENT OF 2016 TAXES, ITEM 6 WILL BE AMENDED TO READ:

TAXES AND ASSESSMENTS FOR THE YEAR 2017 AND SUBSEQUENT YEARS.

LAND TITLE GUARANTEE COMPANY DISCLOSURE STATEMENTS

Note: Pursuant to CRS 10-11-122, notice is hereby given that:

- (A) The Subject real property may be located in a special taxing district.
- (B) A certificate of taxes due listing each taxing jurisdiction will be obtained from the county treasurer of the county in which the real property is located or that county treasurer's authorized agent unless the proposed insured provides written instructions to the contrary. (for an Owner's Policy of Title Insurance pertaining to a sale of residential real property).
- (C) The information regarding special districts and the boundaries of such districts may be obtained from the Board of County Commissioners, the County Clerk and Recorder, or the County Assessor.

Note: Effective September 1, 1997, CRS 30-10-406 requires that all documents received for recording or filing in the clerk and recorder's office shall contain a top margin of at least one inch and a left, right and bottom margin of at least one half of an inch. The clerk and recorder may refuse to record or file any document that does not conform, except that, the requirement for the top margin shall not apply to documents using forms on which space is provided for recording or filing information at the top margin of the document.

Note: Colorado Division of Insurance Regulations 8-1-2 requires that "Every title entity shall be responsible for all matters which appear of record prior to the time of recording whenever the title entity conducts the closing and is responsible for recording or filing of legal documents resulting from the transaction which was closed". Provided that Land Title Guarantee Company conducts the closing of the insured transaction and is responsible for recording the legal documents from the transaction, exception number 5 will not appear on the Owner's Title Policy and the Lenders Policy when issued.

Note: Affirmative mechanic's lien protection for the Owner may be available (typically by deletion of Exception no. 4 of Schedule B, Section 2 of the Commitment from the Owner's Policy to be issued) upon compliance with the following conditions:

- (A) The land described in Schedule A of this commitment must be a single family residence which includes a condominium or townhouse unit.
- (B) No labor or materials have been furnished by mechanics or material-men for purposes of construction on the land described in Schedule A of this Commitment within the past 6 months.
- (C) The Company must receive an appropriate affidavit indemnifying the Company against un-filed mechanic's and material-men's liens.
- (D) The Company must receive payment of the appropriate premium.
- (E) If there has been construction, improvements or major repairs undertaken on the property to be purchased within six months prior to the Date of Commitment, the requirements to obtain coverage for unrecorded liens will include: disclosure of certain construction information; financial information as to the seller, the builder and or the contractor; payment of the appropriate premium fully executed Indemnity Agreements satisfactory to the company, and, any additional requirements as may be necessary after an examination of the aforesaid information by the Company.

No coverage will be given under any circumstances for labor or material for which the insured has contracted for or agreed to pay.

Note: Pursuant to CRS 10-11-123, notice is hereby given:

This notice applies to owner's policy commitments disclosing that a mineral estate has been severed from the surface estate, in Schedule B-2.

- (A) That there is recorded evidence that a mineral estate has been severed, leased, or otherwise conveyed from the surface estate and that there is substantial likelihood that a third party holds some or all interest in oil, gas, other minerals, or geothermal energy in the property; and
- (B) That such mineral estate may include the right to enter and use the property without the surface owner's permission.

Note: Pursuant to CRS 10-1-128(6)(a), It is unlawful to knowingly provide false, incomplete, or misleading facts or information to an insurance company for the purpose of defrauding or attempting to defraud the company. Penalties may include imprisonment, fines, denial of insurance, and civil damages. Any insurance company or agent of an insurance company who knowingly provides false, incomplete, or misleading facts or information to a policyholder or claimant for the purpose of defrauding or attempting to defraud the policyholder or claimant with regard to a settlement or award payable from insurance proceeds shall be reported to the Colorado Division of Insurance within the Department of Regulatory Agencies.

Note: Pursuant to Colorado Division of Insurance Regulations 8-1-3, notice is hereby given of the availability of a closing protection letter for the lender, purchaser, lessee or seller in connection with this transaction.

**JOINT NOTICE OF PRIVACY POLICY OF
LAND TITLE GUARANTEE COMPANY,
LAND TITLE GUARANTEE COMPANY OF SUMMIT COUNTY
LAND TITLE INSURANCE CORPORATION AND
OLD REPUBLIC NATIONAL TITLE INSURANCE COMPANY**

This Statement is provided to you as a customer of Land Title Guarantee Company and Meridian Land Title, LLC, as agents for Land Title Insurance Corporation and Old Republic National Title Insurance Company.

We want you to know that we recognize and respect your privacy expectations and the requirements of federal and state privacy laws. Information security is one of our highest priorities. We recognize that maintaining your trust and confidence is the bedrock of our business. We maintain and regularly review internal and external safeguards against unauthorized access to non-public personal information ("Personal Information").

In the course of our business, we may collect Personal Information about you from:

- applications or other forms we receive from you, including communications sent through TMX, our web-based transaction management system;
 - your transactions with, or from the services being performed by us, our affiliates, or others;
 - a consumer reporting agency, if such information is provided to us in connection with your transaction;
- and
- The public records maintained by governmental entities that we either obtain directly from those entities, or from our affiliates and non-affiliates.

Our policies regarding the protection of the confidentiality and security of your Personal Information are as follows:

- We restrict access to all Personal Information about you to those employees who need to know that information in order to provide products and services to you.
- We maintain physical, electronic and procedural safeguards that comply with federal standards to protect your Personal Information from unauthorized access or intrusion.
- Employees who violate our strict policies and procedures regarding privacy are subject to disciplinary action.
- We regularly assess security standards and procedures to protect against unauthorized access to Personal Information.

WE DO NOT DISCLOSE ANY PERSONAL INFORMATION ABOUT YOU WITH ANYONE FOR ANY PURPOSE THAT IS NOT PERMITTED BY LAW.

Consistent with applicable privacy laws, there are some situations in which Personal Information may be disclosed. We may disclose your Personal Information when you direct or give us permission; when we are required by law to do so, for example, if we are served a subpoena; or when we suspect fraudulent or criminal activities. We also may disclose your Personal Information when otherwise permitted by applicable privacy laws such as, for example, when disclosure is needed to enforce our rights arising out of any agreement, transaction or relationship with you.

Our policy regarding dispute resolution is as follows: Any controversy or claim arising out of or relating to our privacy policy, or the breach thereof, shall be settled by arbitration in accordance with the rules of the American Arbitration Association, and judgment upon the award rendered by the arbitrator(s) may be entered in any court having jurisdiction thereof.

Commitment For Title Insurance

Issued by Old Republic National Title Insurance Corporation

NOTICE

IMPORTANT—READ CAREFULLY: THIS COMMITMENT IS AN OFFER TO ISSUE ONE OR MORE TITLE INSURANCE POLICIES. ALL CLAIMS OR REMEDIES SOUGHT AGAINST THE COMPANY INVOLVING THE CONTENT OF THIS COMMITMENT OR THE POLICY MUST BE BASED SOLELY IN CONTRACT.

THIS COMMITMENT IS NOT AN ABSTRACT OF TITLE, REPORT OF THE CONDITION OF TITLE, LEGAL OPINION, OPINION OF TITLE, OR OTHER REPRESENTATION OF THE STATUS OF TITLE. THE PROCEDURES USED BY THE COMPANY TO DETERMINE INSURABILITY OF THE TITLE, INCLUDING ANY SEARCH AND EXAMINATION, ARE PROPRIETARY TO THE COMPANY, WERE PERFORMED SOLELY FOR THE BENEFIT OF THE COMPANY, AND CREATE NO EXTRACONTRACTUAL LIABILITY TO ANY PERSON, INCLUDING A PROPOSED INSURED.

THE COMPANY'S OBLIGATION UNDER THIS COMMITMENT IS TO ISSUE A POLICY TO A PROPOSED INSURED IDENTIFIED IN SCHEDULE A IN ACCORDANCE WITH THE TERMS AND PROVISIONS OF THIS COMMITMENT. THE COMPANY HAS NO LIABILITY OR OBLIGATION INVOLVING THE CONTENT OF THIS COMMITMENT TO ANY OTHER PERSON. .

COMMITMENT TO ISSUE POLICY

Subject to the Notice; Schedule B, Part I—Requirements; Schedule B, Part II—Exceptions; and the Commitment Conditions, Old Republic National Title Insurance Company, a Minnesota corporation (the "Company"), commits to issue the Policy according to the terms and provisions of this Commitment. This Commitment is effective as of the Commitment Date shown in Schedule A for each Policy described in Schedule A, only when the Company has entered in Schedule A both the specified dollar amount as the Proposed Policy Amount and the name of the Proposed Insured. If all of the Schedule B, Part I—Requirements have not been met within 6 months after the Commitment Date, this Commitment terminates and the Company's liability and obligation end.

COMMITMENT CONDITIONS

1. DEFINITIONS

- (a) "Knowledge" or "Known": Actual or imputed knowledge, but not constructive notice imparted by the Public Records.
- (b) "Land": The land described in Schedule A and affixed improvements that by law constitute real property. The term "Land" does include any property beyond the lines of the area described in Schedule A, nor any right, title, interest, estate, or not easement in abutting streets, roads, avenues, alleys, lanes, ways, or waterways, but this does not modify or limit the extent that a right of access to and from the Land is to be insured by the Policy.
- (c) "Mortgage": A mortgage, deed of trust, or other security instrument, including one evidenced by electronic means authorized by law.
- (d) "Policy": Each contract of title insurance, in a form adopted by the American Land Title Association, issued or to be issued by the Company pursuant to this Commitment.
- (e) "Proposed Insured": Each person identified in Schedule A as the Proposed Insured of each Policy to be issued pursuant to this Commitment.
- (f) "Proposed Policy Amount": Each dollar amount specified in Schedule A as the Proposed Policy Amount of each Policy to be issued pursuant to this Commitment.
- (g) "Public Records": Records established under state statutes at the Commitment Date for the purpose of imparting constructive notice of matters relating to real property to purchasers for value and without Knowledge.
- (h) "Title": The estate or interest described in Schedule A.

2. If all of the Schedule B, Part I—Requirements have not been met within the time period specified in the Commitment to Issue Policy, Commitment terminates and the Company's liability and obligation end.

3. The Company's liability and obligation is limited by and this Commitment is not valid without:

- (a) the Notice;
- (b) the Commitment to Issue Policy;
- (c) the Commitment Conditions;
- (d) Schedule A;
- (e) Schedule B, Part I—Requirements; and
- (f) Schedule B, Part II—Exceptions; and
- (g) a counter-signature by the Company or its issuing agent that may be in electronic form.

4. COMPANY'S RIGHT TO AMEND

The Company may amend this Commitment at any time. If the Company amends this Commitment to add a defect, lien, encumbrance, adverse claim, or other matter recorded in the Public Records prior to the Commitment Date, any liability of the Company is limited by Commitment Condition 5. The Company shall not be liable for any other amendment to this Commitment.

5. LIMITATIONS OF LIABILITY

- (a) The Company's liability under Commitment Condition 4 is limited to the Proposed Insured's actual expense incurred in the interval between the Company's delivery to the Proposed Insured of the Commitment and the delivery of the amended Commitment, resulting from the Proposed Insured's good faith reliance to:
 - i. comply with the Schedule B, Part I—Requirements;
 - ii. eliminate, with the Company's written consent, any Schedule B, Part II—Exceptions; or
 - iii. acquire the Title or create the Mortgage covered by this Commitment.
- (b) The Company shall not be liable under Commitment Condition 5(a) if the Proposed Insured requested the amendment or had Knowledge of the matter and did not notify the Company about it in writing.
- (c) The Company will only have liability under Commitment Condition 4 if the Proposed Insured would not have incurred the expense had the Commitment included the added matter when the Commitment was first delivered to the Proposed Insured.
- (d) The Company's liability shall not exceed the lesser of the Proposed Insured's actual expense incurred in good faith and described in Commitment

- Conditions 5(a)(i) through 5(a)(iii) or the Proposed Policy Amount.
- (e) The Company shall not be liable for the content of the Transaction Identification Data, if any.
- (f) In no event shall the Company be obligated to issue the Policy referred to in this Commitment unless all of the Schedule B, Part I—Requirements have been met to the satisfaction of the Company.
- (g) In any event, the Company's liability is limited by the terms and provisions of the Policy.

6. LIABILITY OF THE COMPANY MUST BE BASED ON THIS COMMITMENT

- (a) Only a Proposed Insured identified in Schedule A, and no other person, may make a claim under this Commitment.
- (b) Any claim must be based in contract and must be restricted solely to the terms and provisions of this Commitment.
- (c) Until the Policy is issued, this Commitment, as last revised, is the exclusive and entire agreement between the parties with respect to the subject matter of this Commitment and supersedes all prior commitment negotiations, representations, and proposals of any kind, whether written or oral, express or implied, relating to the subject matter of this Commitment.
- (d) The deletion or modification of any Schedule B, Part II—Exception does not constitute an agreement or obligation to provide coverage beyond the terms and provisions of this Commitment or the Policy.
- (e) Any amendment or endorsement to this Commitment must be in writing and authenticated by a person authorized by the Company.
- (f) When the Policy is issued, all liability and obligation under this Commitment will end and the Company's only liability will be under the Policy.

7. IF THIS COMMITMENT HAS BEEN ISSUED BY AN ISSUING AGENT

The issuing agent is the Company's agent only for the limited purpose of issuing title insurance commitments and policies. The issuing agent is not the Company's agent for the purpose of providing closing or settlement services.

8. PRO-FORMA POLICY

The Company may provide, at the request of a Proposed Insured, a pro-forma policy illustrating the coverage that the Company may provide. A pro-forma policy neither reflects the status of Title at the time that the pro-forma policy is delivered to a Proposed Insured, nor is it a commitment to insure.

9. ARBITRATION

The Policy contains an arbitration clause. All arbitrable matters when the Proposed Policy Amount is \$2,000,000 or less shall be arbitrated at the option of either the Company or the Proposed Insured as the exclusive remedy of the parties. A Proposed Insured may review a copy of the arbitration rules at <http://www.alta.org/arbitration>.

IN WITNESS WHEREOF, Land Title Insurance Corporation has caused its corporate name and seal to be affixed by its duly authorized officers on the date shown in Schedule A to be valid when countersigned by a validating officer or other authorized signatory.

Description History:		The Leslie the Cleaner Site is a locally owned commercial dry cleaning establishment (at 301 N. Lincoln Avenue, Loveland Colorado 80537) which sits on a .11 acre (approximately 4,800 square-feet) developed lot. The single story building itself is 2056 square feet, and was built in 1945 and remodeled in 1953. The site operated as a filling station until the 1970's, when it was converted to a dry cleaner. The site is currently owned by Ralph Steigleder, and Mr. Steigleder continues to operate a commercial dry cleaning business from the Site. Mr. Steigleder has reported that prior to his ownership (1983), there were at least four (4) other owner/operators of this dry cleaning establishment. The Site is not listed or proposed for listing on the National Priorities List; however, there is known contamination in the form of perchloroethelyene (perc) and its degradation products. The City of Loveland has established a contract to purchase the land (to include the building) and desires to raze the building and remediate the site within the guidelines of the State's Voluntary Clean up Program so as to eventually re-develop the site into mixed use (combined parking/commercial-retail/residential) facilities. The desire to re-develop the site is based on a broader revitalization effort occurring in downtown Loveland. Upon Site acquisition, all dry cleaning operations will cease, and the City will begin implementation of the remediation strategy.

Descr of Events:

THE DRIVER WAS INSTRUCTED TO DELIVER HAZARDOUS SHIPMENTS AS SOON AS POSSIBLE. THE DRIVER WAS INSTRUCTED TO PROPERLY SECURE HIS SHIPMENTS. IF HAZARDOUS SHIPMENTS COULD NOT BE DELIVERED EARLY THE DRIVER WAS INSTRUCTED TO CHECK THE SHIPMENTS PERIODICALLY TO ENSURE THAT THE HAZARDOUS SHIPMENTS REMAIN SECURE PRIOR TO DELIVERY. THE DRIVER WAS ON IS P&D ROUTE ON HIGHWAY 287 JUST SOUTH OF FT. COLLINS CO. AFTER ARRIVING ABOUT 15 MINUTES AFTER HIS LAST STOP THE DRIVER FOUND ONE OF THE CYLINDERS HAD FALLEN OVER AND WAS LEAKING SOME HELIUM. HE SECURED THE TIGHTENED THE VALVE AND GOT OUT OF THE TRAILER AND CALLED DISPATCH. HIS INFORMED DISPATCH THAT THE CYLINDER CALLED AND HE INSTRUCTED THAT THE DRIVER WAS IN NO DANGER AND HE SHOULD LET THE TRAILER AIR OUT ADN RESECURE THE SHIPMENT. I CALLED THE DRIVER BACK AND GAVE HIM THE INSTRUCTIONS. WHEN THE TRAILER WAS CLEAR HE SECURED THE SHIPMENT AND PROCEEDED TO DELIVER IT TO THE CUSTOMER. UPON ARRIVING AT THE CUSTOMER'S LOCATION HE SPOKE WITH THE ENGINEER AND ALERTED THEM OF WHAT HAPPENED. THE VALVE WAS RECHECKED AND NO ADDITION LEAKING OCCURRED.

Cause Info:	Truck ran over a piece of metal in the road, which cut the fuel line, and released approx. 50 gallons of diesel to the roadway and bar ditch where the driver stopped when he saw diesel being released. Caller was on scene, and estimates that the diesel soaked into the ground 6-12 inches. She asked them to get it cleaned up. The company is checking with their insurance to see how to proceed.		
First Rep New Event Dt:	9/26/2014		
Responder 1:	COLORADO STATE PATROL		
Responder 2:	WELLINGTON FIRE DEPT.		
Responder 3:	ANOTHER FIRE DEPT		
Action:	The diesel was totally drained from that tank of the truck. A mechanic was on site when the caller left the scene, attempting to repair the fuel line.

Appendix: Database Descriptions

Environmental Risk Information Services (ERIS) can search the following databases. The extent of historical information varies with each database and current information is determined by what is publicly available to ERIS at the time of update. ERIS updates databases as set out in ASTM Standard E1527-13, Section 8.1.8 Sources of Standard Source Information:

"Government information from nongovernmental sources may be considered current if the source updates the information at least every 90 days, or, for information that is updated less frequently than quarterly by the government agency, within 90 days of the date the government agency makes the information available to the public."

Standard Environmental Record Sources

Federal

National Priority List:

NPL

National Priorities List (Superfund)-NPL: EPA's (United States Environmental Protection Agency) list of the most serious uncontrolled or abandoned hazardous waste sites identified for possible long-term remedial action under the Superfund program. The NPL, which EPA is required to update at least once a year, is based primarily on the score a site receives from EPA's Hazard Ranking System. A site must be on the NPL to receive money from the Superfund Trust Fund for remedial action.

Government Publication Date: Sep 13, 2017

National Priority List - Proposed:

PROPOSED NPL

Includes sites proposed (by the EPA, the state, or concerned citizens) for addition to the NPL due to contamination by hazardous waste and identified by the Environmental Protection Agency (EPA) as a candidate for cleanup because it poses a risk to human health and/or the environment.

Government Publication Date: Sep 13, 2017

Deleted NPL:

DELETED NPL

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate.

Government Publication Date: Sep 13, 2017

SEMS List 8R Active Site Inventory:

SEMS

The Superfund Program has deployed the Superfund Enterprise Management System (SEMS), which integrates multiple legacy systems into a comprehensive tracking and reporting tool. This inventory contains active sites evaluated by the Superfund program that are either proposed to be or are on the National Priorities List (NPL) as well as sites that are in the screening and assessment phase for possible inclusion on the NPL. The Active Site Inventory Report displays site and location information at active SEMS sites. An active site is one at which site assessment, removal, remedial, enforcement, cost recovery, or oversight activities are being planned or conducted.

Government Publication Date: Jul 11, 2017

SEMS List 8R Archive Sites:

SEMS ARCHIVE

The Superfund Enterprise Management System (SEMS) Archived Site Inventory displays site and location information at sites archived from SEMS. An archived site is one at which EPA has determined that assessment has been completed and no further remedial action is planned under the Superfund program at this time.

Government Publication Date: Jul 11, 2017

Comprehensive Environmental Response, Compensation and Liability Information System - CERCLIS:

CERCLIS

Superfund is a program administered by the United States Environmental Protection Agency (EPA) to locate, investigate, and clean up the worst hazardous waste sites throughout the United States. CERCLIS is a database of potential and confirmed hazardous waste sites at which the EPA Superfund program has some involvement. It contains sites that are either proposed to be or are on the National Priorities List (NPL) as well as sites that are in the screening and assessment phase for possible inclusion on the NPL. The EPA administers the Superfund program in cooperation with individual states and tribal governments; this database is made available by the EPA.

Government Publication Date: Oct 25, 2013

CERCLIS - No Further Remedial Action Planned:[CERCLIS NFRAP](#)

An archived site is one at which EPA has determined that assessment has been completed and no further remedial action is planned under the Superfund program at this time. The Archive designation means that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list this site on the National Priorities List (NPL). This decision does not necessarily mean that there is no hazard associated with a given site; it only means that, based upon available information, the location is not judged to be a potential NPL site.

Government Publication Date: Oct 25, 2013

CERCLIS Liens:[CERCLIS LIENS](#)

A Federal Superfund lien exists at any property where EPA has incurred Superfund costs to address contamination ("Superfund site") and has provided notice of liability to the property owner. A Federal CERCLA ("Superfund") lien can exist by operation of law at any site or property at which EPA has spent Superfund monies. This database is made available by the United States Environmental Protection Agency (EPA).

Government Publication Date: Jan 30, 2014

RCRA CORRACTS-Corrective Action:[RCRA CORRACTS](#)

RCRA Info is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. At these sites, the Corrective Action Program ensures that cleanups occur. EPA and state regulators work with facilities and communities to design remedies based on the contamination, geology, and anticipated use unique to each site.

Government Publication Date: Aug 10, 2017

RCRA non-CORRACTS TSD Facilities:[RCRA TSD](#)

RCRA Info is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. This database includes Non-Corrective Action sites listed as treatment, storage and/or disposal facilities of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA).

Government Publication Date: Aug 10, 2017

RCRA Generator List:[RCRA LQG](#)

RCRA Info is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. RCRA Info replaces the data recording and reporting abilities of the Resource Conservation and Recovery Information System (RCRIS) and the Biennial Reporting System (BRS). A hazardous waste generator is any person or site whose processes and actions create hazardous waste (see 40 CFR 260.10). Large Quantity Generators (LQGs) generate 1,000 kilograms per month or more of hazardous waste or more than one kilogram per month of acutely hazardous waste.

Government Publication Date: Aug 10, 2017

RCRA Small Quantity Generators List:[RCRA SQG](#)

RCRA Info is the EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. RCRA Info replaces the data recording and reporting abilities of the Resource Conservation and Recovery Information System (RCRIS) and the Biennial Reporting System (BRS). A hazardous waste generator is any person or site whose processes and actions create hazardous waste (see 40 CFR 260.10). Small Quantity Generators (SQGs) generate more than 100 kilograms, but less than 1,000 kilograms, of hazardous waste per month.

Government Publication Date: Aug 10, 2017

RCRA Conditionally Exempt Small Quantity Generators List:[RCRA CESQG](#)

RCRA Info is the EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. RCRA Info replaces the data recording and reporting abilities of the Resource Conservation and Recovery Information System (RCRIS) and the Biennial Reporting System (BRS). A hazardous waste generator is any person or site whose processes and actions create hazardous waste (see 40 CFR 260.10). Conditionally Exempt Small Quantity Generators (CESQG) generate 100 kilograms or less per month of hazardous waste or one kilogram or less per month of acutely hazardous waste.

Government Publication Date: Aug 10, 2017

RCRA Non-Generators:[RCRA NON GEN](#)

RCRA Info is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. RCRA Info replaces the data recording and reporting abilities of the Resource Conservation and Recovery Information System (RCRIS) and the Biennial Reporting System (BRS). A hazardous waste generator is any person or site whose processes and actions create hazardous waste (see 40 CFR 260.10). Non-Generators do not presently generate hazardous waste.

Government Publication Date: Aug 10, 2017

Federal Engineering Controls-ECs:

FED ENG

Engineering controls (ECs) encompass a variety of engineered and constructed physical barriers (e.g., soil capping, sub-surface venting systems, mitigation barriers, fences) to contain and/or prevent exposure to contamination on a property. This database is made available by the United States Environmental Protection Agency (EPA).

Government Publication Date: Jan 20, 2016

Federal Institutional Controls- ICs:

FED INST

Institutional controls are non-engineered instruments, such as administrative and legal controls, that help minimize the potential for human exposure to contamination and/or protect the integrity of the remedy. Although it is EPA's (United States Environmental Protection Agency) expectation that treatment or engineering controls will be used to address principal threat wastes and that groundwater will be returned to its beneficial use whenever practicable, ICs play an important role in site remedies because they reduce exposure to contamination by limiting land or resource use and guide human behavior at a site.

Government Publication Date: Jan 20, 2016

Emergency Response Notification System:

ERNS 1982 TO 1986

Database of oil and hazardous substances spill reports controlled by the National Response Center. The primary function of the National Response Center is to serve as the sole national point of contact for reporting oil, chemical, radiological, biological, and etiological discharges into the environment anywhere in the United States and its territories.

Government Publication Date: 1982-1986

Emergency Response Notification System:

ERNS 1987 TO 1989

Database of oil and hazardous substances spill reports controlled by the National Response Center. The primary function of the National Response Center is to serve as the sole national point of contact for reporting oil, chemical, radiological, biological, and etiological discharges into the environment anywhere in the United States and its territories.

Government Publication Date: 1987-1989

Emergency Response Notification System:

ERNS

Database of oil and hazardous substances spill reports controlled by the National Response Center. The primary function of the National Response Center is to serve as the sole national point of contact for reporting oil, chemical, radiological, biological, and etiological discharges into the environment anywhere in the United States and its territories. This database is made available by the United States Environmental Protection Agency (EPA).

Government Publication Date: Feb 8, 2017

The Assessment, Cleanup and Redevelopment Exchange System (ACRES) Brownfield Database:

FED BROWNFIELDS

Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties protects the environment, reduces blight, and takes development pressures off greenspaces and working lands. This database is made available by the United States Environmental Protection Agency (EPA).

Government Publication Date: Aug 16, 2017

FEMA Underground Storage Tank Listing:

FEMA UST

The Federal Emergency Management Agency (FEMA) of the Department of Homeland Security maintains a list of FEMA owned underground storage tanks.

Government Publication Date: May 31, 2017

LIEN on Property:

SEMS LIEN

The EPA Superfund Enterprise Management System (SEMS) provides LIEN information on properties under the EPA Superfund Program.

Government Publication Date: Oct 17, 2017

State**Solid Waste Facilities and Landfills:**

SWF/LF

The Colorado Department of Public Health and Environment (CDPHE) regulates the management and disposal of solid waste and landfill facilities.

Government Publication Date: Jun 29, 2017

Historical Solid Waste (Closed or Abandoned Landfills):

HIST LF

In the early 1980s the Hazardous Materials Waste Management Division of the Colorado Department of Public Health and Environment (CDPHE) conducted a survey of staff members and local agencies. The information gathered was compiled in 1984 for sites that were known or thought to have waste issues. The information is not complete and generally not very definitive or verifiable. This data became the Solid Waste Historical Data. The data is not maintained and has not been since the late 1980s.

Government Publication Date: 1984

Leaking Storage Tanks:

LST

A list of leaking storage tank locations from the Colorado Storage Tank Information System (COSTIS) database, including those which have applied for reimbursement from the Petroleum Storage Tank Fund. This list has been made available by the Colorado Department of Labor and Employment (CDLE).

Government Publication Date: Oct 3, 2017

Delisted Leaking Storage Tanks:

DELISTED LST

This database contains a list of leaking storage tank sites and their Funds for reimbursement of costs related to assessment and cleanup that were removed from the Colorado Department of Labor and Employment (CDLE) database.

Government Publication Date: Oct 3, 2017

Underground Storage Tanks:

UST

A list of underground storage tanks from the Colorado Storage Tank Information System (COSTIS) database. This database is made available by the Division of Oil and Public Safety of the Colorado Department of Labor and Employment (CDLE).

Government Publication Date: Oct 3, 2017

Aboveground Storage Tanks:

AST

A list of aboveground storage tanks from the Colorado Storage Tank Information System (COSTIS) database. This list is made available by the Division of Oil and Public Safety of the Colorado Department of Labor and Employment (CDLE).

Government Publication Date: Oct 3, 2017

Delisted Storage Tanks:

DTNK

This database contains a list of closed storage tank sites that were removed from the Division of Oil and Public Safety of the Colorado Department of Labor and Employment (CDLE) Tank Information System.

Government Publication Date: Oct 3, 2017

Environmental Covenants and Environmental Use Restrictions List:

AUL

The Colorado Department of Public Health and Environment (CDPHE) maintains a list of sites that have environmental covenants and use restrictions in place. Land use restrictions may be used to ensure the cleanup remedy adequately protects human health and the environment when a contaminated site is not cleaned up completely.

Government Publication Date: Aug 17, 2017

The Voluntary Cleanup and Redevelopment Program:

VCP

The Voluntary Cleanup and Redevelopment program of the Colorado Department of Public Health and Environment (CDPHE) was created in 1994 with the objective to facilitate the redevelopment and transfer of contaminated properties.

Government Publication Date: Aug 29, 2017

Tribal

Leaking Underground Storage Tanks (LUSTs) on Indian Lands:

INDIAN LUST

LUSTs on Tribal/Indian Lands in Region 8, which includes Colorado.

Government Publication Date: May 1, 2017

Underground Storage Tanks (USTs) on Indian Lands:

INDIAN UST

USTs on Tribal/Indian Lands in Region 8, which includes Colorado.

Government Publication Date: May 1, 2017

Delisted Tribal Leaking Storage Tanks:

DELISTED ILST

Leaking Underground Storage Tank facilities which have been removed from the Regional Tribal LUST lists made available by the EPA.

Government Publication Date: Aug 3, 2017

Delisted Tribal Underground Storage Tanks:

DELISTED IUST

Underground Storage Tank facilities which have been removed from the Regional Tribal UST lists made available by the EPA.

Government Publication Date: Aug 3, 2017

County

No County standard environmental record sources available for this State.

Additional Environmental Record Sources**Federal****Hazardous Materials Information Reporting System:**

HMIRS

US DOT - Department of Transportation Pipeline and Hazardous Materials Safety Administration (PHMSA) Incidents Reports Database taken from Hazmat Intelligence Portal, U.S. Department of Transportation.

Government Publication Date: Feb 28, 2017

National Clandestine Drug Labs:

NCDL

The U.S. Department of Justice ("the Department") provides this data as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy.

Government Publication Date: May 4, 2017

Inventory of Open Dumps, June 1985:

ODI

The Resource Conservation and Recovery Act (RCRA of the Act) provides for publication of an inventory of open dumps. The Act defines "open dumps" as facilities which do not comply with EPA's "Criteria for Classification of Solid Waste Disposal Facilities and Practices" (40 CFR 257).

Government Publication Date: Jun 1985

EPA Report on the Status of Open Dumps on Indian Lands:

IODI

Public Law 103-399, The Indian Lands Open Dump Cleanup Act of 1994, enacted October 22, 1994, identified congressional concerns that solid waste open dump sites located on American Indian or Alaska Native (AI/AN) lands threaten the health and safety of residents of those lands and contiguous areas. The purpose of the Act is to identify the location of open dumps on Indian lands, assess the relative health and environment hazards posed by those sites, and provide financial and technical assistance to Indian tribal governments to close such dumps in compliance with Federal standards and regulations or standards promulgated by Indian Tribal governments or Alaska Native entities.

Government Publication Date: Dec 31, 1998

Toxic Substances Control Act:

TSCA

The Environmental Protection Agency (EPA) is amending the Toxic Substances Control Act (TSCA) section 8(a) Inventory Update Reporting (IUR) rule and changing its name to the Chemical Data Reporting (CDR) rule.

The CDR enables EPA to collect and publish information on the manufacturing, processing, and use of commercial chemical substances and mixtures (referred to hereafter as chemical substances) on the TSCA Chemical Substance Inventory (TSCA Inventory). This includes current information on chemical substance production volumes, manufacturing sites, and how the chemical substances are used. This information helps the Agency determine whether people or the environment are potentially exposed to reported chemical substances. EPA publishes submitted CDR data that is not Confidential Business Information (CBI).

Government Publication Date: Jun 30, 2017

Hist TSCA:

HIST TSCA

The Environmental Protection Agency (EPA) is amending the Toxic Substances Control Act (TSCA) section 8(a) Inventory Update Reporting (IUR) rule and changing its name to the Chemical Data Reporting (CDR) rule.

The 2006 IUR data summary report includes information about chemicals manufactured or imported in quantities of 25,000 pounds or more at a single site during calendar year 2005. In addition to the basic manufacturing information collected in previous reporting cycles, the 2006 cycle is the first time EPA collected information to characterize exposure during manufacturing, processing and use of organic chemicals. The 2006 cycle also is the first time manufacturers of inorganic chemicals were required to report basic manufacturing information.

Government Publication Date: Dec 31, 2006

FTTS Administrative Case Listing:

FTTS ADMIN

An administrative case listing from the Federal Insecticide, Fungicide, & Rodenticide Act (FIFRA) and Toxic Substances Control Act (TSCA), together known as FTTS. This database was obtained from the Environmental Protection Agency's (EPA) National Compliance Database (NCDB). The FTTS and NCDB was shut down in 2006.

Government Publication Date: Jan 19, 2007

FTTS Inspection Case Listing:

FTTS INSP

An inspection case listing from the Federal Insecticide, Fungicide, & Rodenticide Act (FIFRA) and Toxic Substances Control Act (TSCA), together known as FTTS. This database was obtained from the Environmental Protection Agency's (EPA) National Compliance Database (NCDB). The FTTS and NCDB was shut down in 2006.

Government Publication Date: Jan 19, 2007

State Coalition for Remediation of Drycleaners Listing:

SCRD DRYCLEANER

The State Coalition for Remediation of Drycleaners (SCRD) was established in 1998, with support from the U.S. Environmental Protection Agency (EPA) Office of Superfund Remediation and Technology Innovation. Coalition members are states with mandated programs and funding for drycleaner site remediation. Current members are Alabama, Connecticut, Florida, Illinois, Kansas, Minnesota, Missouri, North Carolina, Oregon, South Carolina, Tennessee, Texas, and Wisconsin.

Government Publication Date: Jan 1, 2017

Drycleaner Facilities:

FED DRYCLEANERS

A list of drycleaner facilities from the Integrated Compliance Information System (ICIS). The Environmental Protection Agency (EPA) tracks facilities that possess NAIC and SIC codes that classify businesses as drycleaner establishments.

Government Publication Date: Sep 14, 2016

Delisted Drycleaner Facilities:

DELISTED FED DRY

List of sites removed from the list of Drycleaner Facilities (sites in the EPA's Integrated Compliance Information System (ICIS) with NAIC or SIC codes identifying the business as a drycleaner establishment).

Government Publication Date: Sep 14, 2016

Formerly Used Defense Sites:

FUDS

Formerly Used Defense Sites (FUDS) are properties that were formerly owned by, leased to, or otherwise possessed by and under the jurisdiction of the Secretary of Defense prior to October 1986, where the Department of Defense (DoD) is responsible for an environmental restoration. This list is published by the U.S. Army Corps of Engineers.

Government Publication Date: Nov 22, 2016

Material Licensing Tracking System (MLTS):

MLTS

A list of sites that store radioactive material subject to the Nuclear Regulatory Commission (NRC) licensing requirements. This list is maintained by the NRC. As of September 2016, the NRC no longer releases location information for sites. Site locations were last received in July 2016.

Government Publication Date: Sep 13, 2016

Historic Material Licensing Tracking System (MLTS) sites:

HIST MLTS

A historic list of sites that have inactive licenses and/or removed from the Material Licensing Tracking System (MLTS). In some cases, a site is removed from the MLTS when the state becomes an "Agreement State". An Agreement State is a State that has signed an agreement with the Nuclear Regulatory Commission (NRC) authorizing the State to regulate certain uses of radioactive materials within the State.

Government Publication Date: Jan 31, 2010

Alternative Fueling Stations:

ALT FUELS

List of alternative fueling stations made available by the US Department of Energy's Office of Energy Efficiency & Renewable Energy. Includes Biodiesel stations, Ethanol (E85) stations, Liquefied Petroleum Gas (Propane) stations, Ethanol (E85) stations, Natural Gas stations, Hydrogen stations, and Electric Vehicle Supply Equipment (EVSE). The National Renewable Energy Laboratory (NREL) obtains information about new stations from trade media, Clean Cities coordinators, a Submit New Station form on the Station Locator website, and through collaborating with infrastructure equipment and fuel providers, original equipment manufacturers (OEMs), and industry groups.

Government Publication Date: Aug 16, 2017

Superfund Decision Documents:

SUPERFUND ROD

This database contains a listing of decision documents for Superfund sites. Decision documents serve to provide the reasoning for the choice of (or) changes to a Superfund Site cleanup plan. The decision documents include Records of Decision (ROD), ROD Amendments, Explanations of Significant Differences (ESD), along with other associated memos and files. This information is maintained and made available by the US EPA (Environmental Protection Agency).

Registered Pesticide Establishments:

[SSTS](#)

List of active EPA-registered foreign and domestic pesticide-producing and device-producing establishments based on data from the Section Seven Tracking System (SSTS). The Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) Section 7 requires that facilities producing pesticides, active ingredients, or devices be registered. The list of establishments is made available by the EPA.

Government Publication Date: Feb 28, 2017

Polychlorinated Biphenyl (PCB) Notifiers:

[PCB](#)

Facilities included in the national list of facilities that have notified the United States Environmental Protection Agency (EPA) of Polychlorinated Biphenyl (PCB) activities. Any company or person storing, transporting or disposing of PCBs or conducting PCB research and development must notify the EPA and receive an identification number.

Government Publication Date: Jul 18, 2017

State

Spills:

[SPILLS](#)

A list of hazardous material spills and releases (including Meth Labs) that were reported to the Colorado Department of Public Health and Environment (CDPHE).

Government Publication Date: Sep 13, 2017

Dry Cleaning Facilities:

[DRYCLEANERS](#)

A list of drycleaning facilities in Colorado that have submitted an Air Pollutant Emission Notice (APEN). This list was provided by the Department of Public Health & Environment.

Government Publication Date: Aug 8, 2017

Delisted Dry Cleaning Facilities:

[DELISTED DRYC](#)

List of sites removed from the drycleaners database made available by the Department of Public Health & Environment.

Government Publication Date: Aug 8, 2017

Permitted Facilities Listing:

[NPDES](#)

A list of permitted facilities tracked by the Water Quality Control Division of the Department of Public Health & Environment (DPHE). This list is the state version of the NPDES (National Pollution Discharge Elimination System).

Government Publication Date: Sep 14, 2017

Tribal

No Tribal additional environmental record sources available for this State.

County

No County additional environmental record sources available for this State.

Definitions

Database Descriptions: This section provides a detailed explanation for each database including: source, information available, time coverage, and acronyms used. They are listed in alphabetic order.

Detail Report: This is the section of the report which provides the most detail for each individual record. Records are summarized by location, starting with the project property followed by records in closest proximity.

Distance: The distance value is the distance between plotted points, not necessarily the distance between the sites' boundaries. All values are an approximation.

Direction: The direction value is the compass direction of the site in respect to the project property and/or center point of the report.

Elevation: The elevation value is taken from the location at which the records for the site address have been plotted. All values are an approximation. Source: Google Elevation API.

Executive Summary: This portion of the report is divided into 3 sections:

'Report Summary'- Displays a chart indicating how many records fall on the project property and, within the report search radii.

'Site Report Summary'-Project Property'- This section lists all the records which fall on the project property. For more details, see the 'Detail Report' section.

'Site Report Summary-Surrounding Properties'- This section summarizes all records on adjacent properties, listing them in order of proximity from the project property. For more details, see the 'Detail Report' section.

Map Key: The map key number is assigned according to closest proximity from the project property. Map Key numbers always start at #1. The project property will always have a map key of '1' if records are available. If there is a number in brackets beside the main number, this will indicate the number of records on that specific property. If there is no number in brackets, there is only one record for that property.

The symbol and colour used indicates 'elevation': the red inverted triangle will dictate 'ERIS Sites with Lower Elevation', the yellow triangle will dictate 'ERIS Sites with Higher Elevation' and the orange square will dictate 'ERIS Sites with Same Elevation.'

Unplottables: These are records that could not be mapped due to various reasons, including limited geographic information. These records may or may not be in your study area, and are included as reference.

Property Information

Order Number:	20171120263p
Date Completed:	November 20, 2017

Detail Report.....	15
Radon Information.....	191
Appendix.....	192
Liability Notice.....	194

The ERIS **Physical Setting Report - PSR** provides comprehensive information about the physical setting around a site and includes a complete overview of topography and surface topology, in addition to hydrologic, geologic and soil characteristics. The location and detailed attributes of oil and gas wells, water wells, public water systems and radon are also included for review.

The compilation of both physical characteristics of a site and additional attribute data is useful in assessing the impact of migration of contaminants and subsequent impact on soils and groundwater.

Disclaimer

This Report does not provide a full environmental evaluation for the site or adjacent properties. Please see the terms and disclaimer at the end of the Report for greater detail.

Topographic Information

Current USGS Topo

Quadrangle(s): Loveland, CO

Source: USGS 7.5 Minute Topographic Map

Topographic Information

The previous topographic map(s) are created by seamlessly merging and cutting current USGS topographic data. Below are shaded relief map(s), derived from USGS elevation data to show surrounding topography in further detail.

Topographic information at project property:

Elevation: 4,984.85 ft
Slope Direction: SE

Hydrologic Information

Source: Esri, DigitalGlobe, GeoEye, Earthstar Geographics, CNES/Airbus DS, USDA, USGS, AeroGRID, IGN, and the GIS User Community

Wetland Type

This map shows wetland existence using data from US Fish & Wildlife. Data coverage is shown to the right. Gray indicates no data available in the area.

 Estuarine and Marine Deepwater	 Freshwater Pond
 Estuarine and Marine Wetland	 Lake
 Freshwater Emergent Wetland	 Other
 Freshwater Forested/Shrub Wetland	 Riverine

Hydrologic Information

Flood Hazard Zones

This map shows FEMA flood hazard zones. FIRM panels are shown to the right, and blank indicates no data is available.

Hydrologic Information

The Wetland Type map shows wetland existence overlaid on an aerial imagery. The Flood Hazard Zones map shows FEMA flood hazard zones overlaid on an aerial imagery. Relevant FIRM panels and detailed zone information is provided below.

Available FIRM Panels in area:	08069C1189F(effective:2006-12-19)
--------------------------------	-----------------------------------

Flood Zone X-12

Zone:	X
Zone subtype:	AREA OF MINIMAL FLOOD HAZARD

Geologic Information

Geologic Units

This maps shows geologic units in the area. Please refer to the report for detailed descriptions.

Geologic Information

The previous page shows USGS geology information. Detailed information about each unit is provided below.

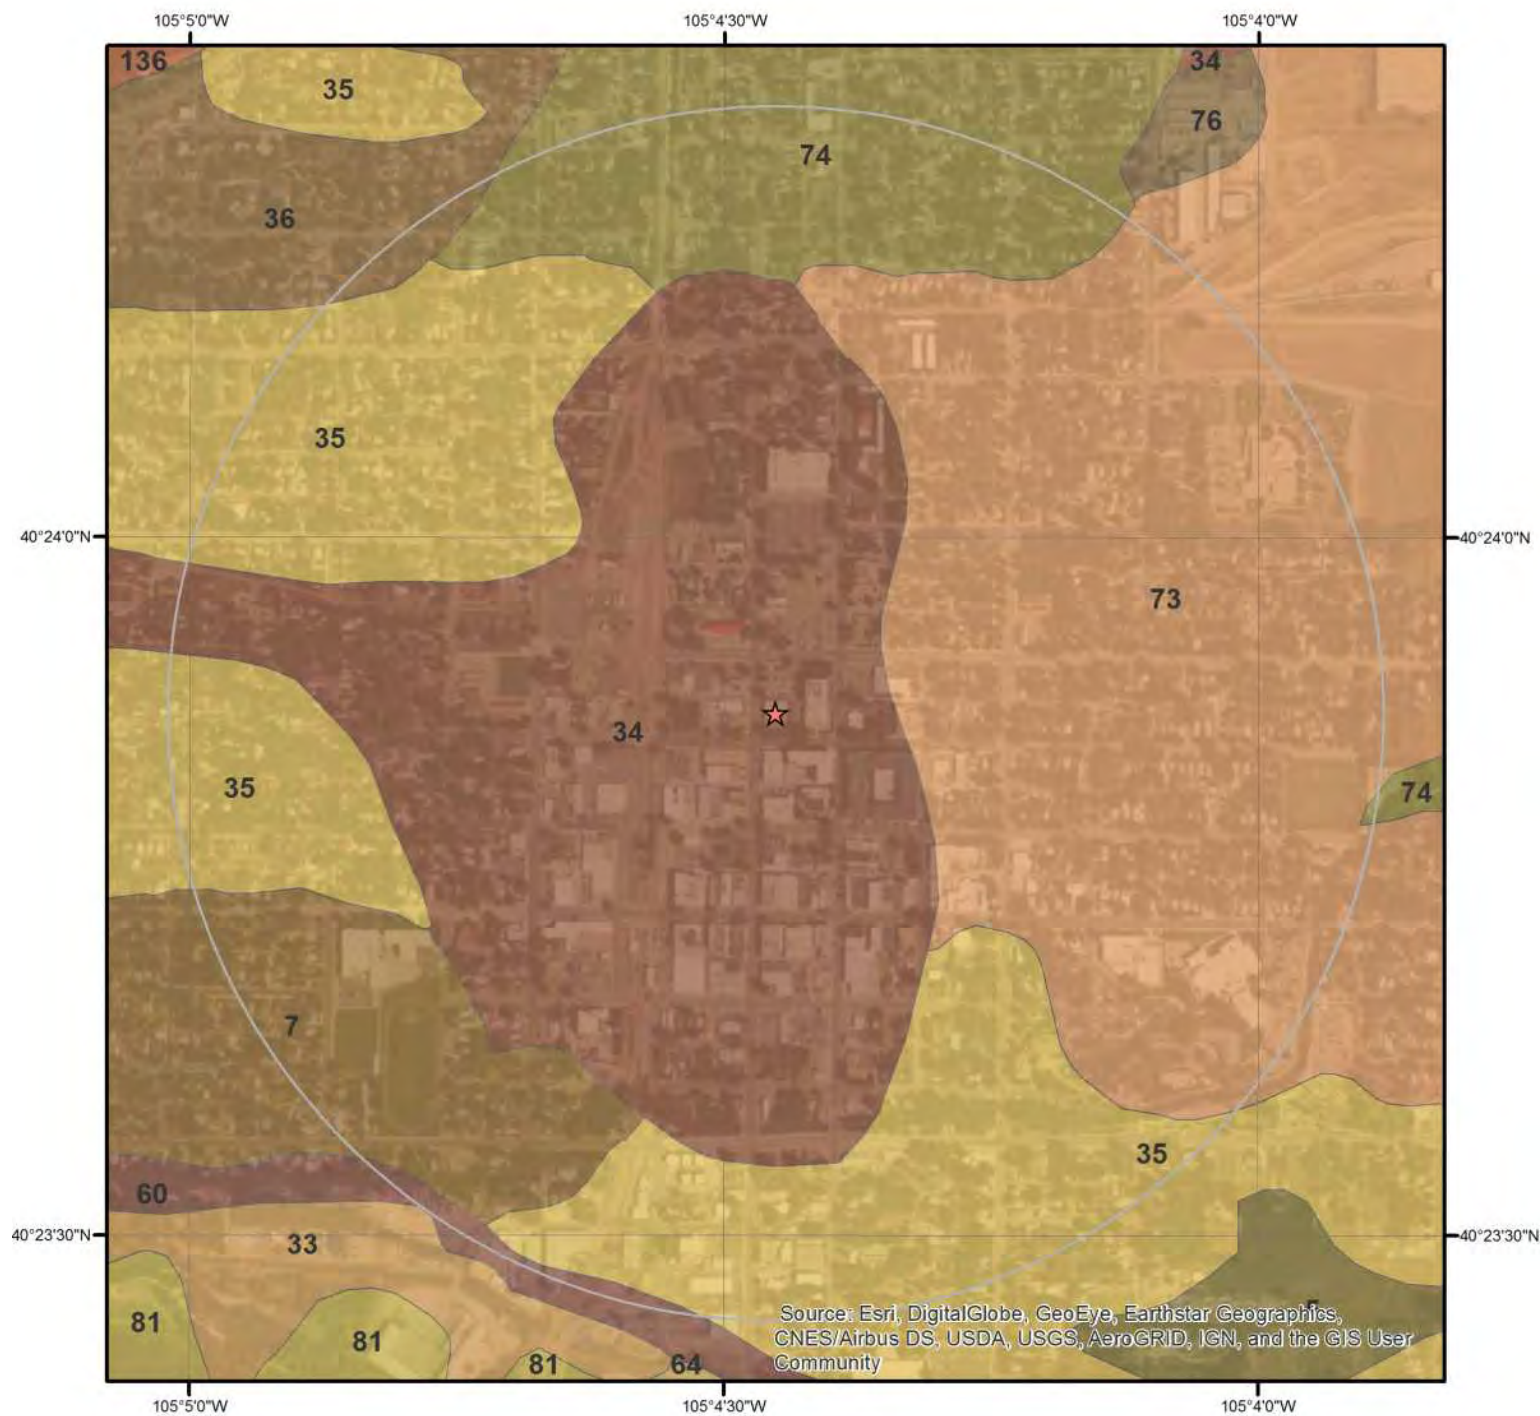

Geologic Unit Qa

Unit Name:	Modern alluvium
Unit Age:	Quaternary
Primary Rock Type:	alluvium
Secondary Rock Type:	
Unit Description:	Includes Piney Creek Alluvium and younger deposits

Geologic Unit Qe

Unit Name:	Eolian deposits
Unit Age:	Quaternary
Primary Rock Type:	dune sand
Secondary Rock Type:	silt
Unit Description:	Includes dune sand and silt and Peoria Loess

Soil Information

SSURGO Soils

This maps shows SSURGO soil units around the target property. Please refer to the report for detailed soil descriptions.

Soil Information

The previous page shows a soil map using SSURGO data from USDA Natural Resources Conservation Service. Detailed information about each unit is provided below.

Map Unit 34

Map Unit Name:	Fort Collins loam, 0 to 1 percent slopes
Bedrock Depth - Min:	null
Watertable Depth - Annual Min:	null
Drainage Class - Dominant:	Well drained
Hydrologic Group - Dominant:	B - Soils in this group have moderately low runoff potential when thoroughly wet. Water transmission through the soil is unimpeded.

Major components are printed below

Fort Collins(85%)	
horizon H1(0cm to 20cm)	Loam
horizon H2(20cm to 46cm)	Clay loam
horizon H2(20cm to 46cm)	Loam
horizon H3(46cm to 152cm)	Fine sandy loam
horizon H3(46cm to 152cm)	Loam
horizon H3(46cm to 152cm)	Silt loam

Map Unit 35

Map Unit Name:	Fort Collins loam, 0 to 3 percent slopes
Bedrock Depth - Min:	null
Watertable Depth - Annual Min:	null
Drainage Class - Dominant:	Well drained
Hydrologic Group - Dominant:	C - Soils in this group have moderately high runoff potential when thoroughly wet. Water transmission through the soil is somewhat restricted.

Major components are printed below

Fort Collins(85%)	
horizon Ap(0cm to 11cm)	Loam
horizon Bt1(11cm to 24cm)	Clay loam
horizon Bt2(24cm to 40cm)	Clay loam
horizon Bk1(40cm to 73cm)	Loam
horizon Bk2(73cm to 203cm)	Loam

Map Unit 36

Map Unit Name:	Fort Collins loam, 3 to 5 percent slopes
Bedrock Depth - Min:	null
Watertable Depth - Annual Min:	null
Drainage Class - Dominant:	Well drained
Hydrologic Group - Dominant:	B - Soils in this group have moderately low runoff potential when thoroughly wet. Water transmission through the soil is unimpeded.

Major components are printed below

Fort Collins(90%)	
horizon H1(0cm to 23cm)	Loam

Soil Information

horizon H2(23cm to 51cm)	Clay loam
horizon H2(23cm to 51cm)	Loam
horizon H3(51cm to 152cm)	Fine sandy loam
horizon H3(51cm to 152cm)	Loam
horizon H3(51cm to 152cm)	Silt loam

Map Unit 60

Map Unit Name:	Larim gravelly sandy loam, 5 to 40 percent slopes
Bedrock Depth - Min:	null
Watertable Depth - Annual Min:	null
Drainage Class - Dominant:	Well drained
Hydrologic Group - Dominant:	B - Soils in this group have moderately low runoff potential when thoroughly wet. Water transmission through the soil is unimpeded.
Major components are printed below	
Larim(85%)	
horizon H1(0cm to 10cm)	Gravelly sandy loam
horizon H2(10cm to 38cm)	Very gravelly clay loam
horizon H2(10cm to 38cm)	Very gravelly sandy clay loam
horizon H3(38cm to 152cm)	Very gravelly loamy sand
horizon H3(38cm to 152cm)	Very gravelly sand

Map Unit 7

Map Unit Name:	Ascalon sandy loam, 0 to 3 percent slopes
Bedrock Depth - Min:	null
Watertable Depth - Annual Min:	null
Drainage Class - Dominant:	Well drained
Hydrologic Group - Dominant:	B - Soils in this group have moderately low runoff potential when thoroughly wet. Water transmission through the soil is unimpeded.
Major components are printed below	
Ascalon(85%)	
horizon Ap(0cm to 15cm)	Sandy loam
horizon Bt1(15cm to 30cm)	Sandy clay loam
horizon Bt2(30cm to 48cm)	Sandy clay loam
horizon Bk(48cm to 89cm)	Sandy clay loam
horizon C(89cm to 203cm)	Sandy loam

Map Unit 73

Map Unit Name:	Nunn clay loam, 0 to 1 percent slopes
Bedrock Depth - Min:	null
Watertable Depth - Annual Min:	null
Drainage Class - Dominant:	Well drained
Hydrologic Group - Dominant:	C - Soils in this group have moderately high runoff potential when thoroughly wet. Water transmission through the soil is somewhat restricted.
Major components are printed below	
Nunn(85%)	
horizon Ap(0cm to 15cm)	Clay loam

Soil Information

horizon Bt1(15cm to 25cm)	Clay loam
horizon Bt2(25cm to 66cm)	Clay loam
horizon Btk(66cm to 79cm)	Clay loam
horizon Bk1(79cm to 119cm)	Loam
horizon Bk2(119cm to 203cm)	Loam

Map Unit 74

Map Unit Name:	Nunn clay loam, 1 to 3 percent slopes
Bedrock Depth - Min:	null
Watertable Depth - Annual Min:	null
Drainage Class - Dominant:	Well drained
Hydrologic Group - Dominant:	C - Soils in this group have moderately high runoff potential when thoroughly wet. Water transmission through the soil is somewhat restricted.
Major components are printed below	
Nunn(85%)	
horizon H1(0cm to 25cm)	Clay loam
horizon H2(25cm to 152cm)	Clay
horizon H2(25cm to 152cm)	Clay loam

Comment :

Radon Information

This section lists any relevant radon information found for the target property.

Federal EPA Radon Zone for *LARIMER* County: 1

- Zone 1: Counties with predicted average indoor radon screening levels greater than 4 pCi/L*
- Zone 2: Counties with predicted average indoor radon screening levels from 2 to 4 pCi/L*
- Zone 3: Counties with predicted average indoor radon screening levels less than 2 pCi/L*

Federal Area Radon Information for *LARIMER* County

No Measures/Homes:	96
Geometric Mean:	3.2
Arithmetic Mean:	5.5
Median:	3.5
Standard Deviation:	5.2
Maximum:	25.1
% >4 pCi/L:	43
% >20 pCi/L:	3
Notes on Data Table:	TABLE 1. Screening indoor radon data from the EPA/State Residential Radon Survey of Colorado conducted during 1986-87. Data represent 2-7 day charcoal canister measurements from the lowest level of each home tested.

Federal Sources

FEMA National Flood Hazard Layer

FEMA FLOOD

The National Flood Hazard Layer (NFHL) data incorporates Flood Insurance Rate Map (FIRM) databases published by the Federal Emergency Management Agency (FEMA), and any Letters Of Map Revision (LOMRs) that have been issued against those databases since their publication date. The FIRM Database is the digital, geospatial version of the flood hazard information shown on the published paper FIRMs. The FIRM Database depicts flood risk information and supporting data used to develop the risk data. The FIRM Database is derived from Flood Insurance Studies (FISs), previously published FIRMs, flood hazard analyses performed in support of the FISs and FIRMs, and new mapping data, where available.

Indoor Radon Data

INDOOR RADON

Indoor radon measurements tracked by the Environmental Protection Agency(EPA) and the State Residential Radon Survey.

Public Water Systems Violations and Enforcement Data

PWSV

List of drinking water violations and enforcement actions from the Safe Drinking Water Information System (SDWIS) made available by the Drinking Water Protection Division of the US EPA's Office of Groundwater and Drinking Water. Enforcement sensitive actions are not included in the data released by the EPA. Address information provided in SDWIS may correspond either with the physical location of the water system, or with a contact address.

Radon Zone Level

RADON ZONE

Areas showing the level of Radon Zones (level 1, 2 or 3) by county. This data is maintained by the Environmental Protection Agency (EPA).

Safe Drinking Water Information System (SDWIS)

SDWIS

The Safe Drinking Water Information System (SDWIS) contains information about public water systems as reported to US Environmental Protection Agency (EPA) by the states. Addresses may correspond with the location of the water system, or with a contact address.

Soil Survey Geographic database

SSURGO

The Soil Survey Geographic database (SSURGO) contains information about soil as collected by the National Cooperative Soil Survey at the Natural Resources Conservation Service (NRCS). Soil maps outline areas called map units. The map units are linked to soil properties in a database. Each map unit may contain one to three major components and some minor components.

U.S. Fish & Wildlife Service Wetland Data

US WETLAND

The U.S. Fish & Wildlife Service Wetland layer represents the approximate location and type of wetlands and deepwater habitats in the United States.

USGS Current Topo

US TOPO

US Topo topographic maps are produced by the National Geospatial Program of the U.S. Geological Survey (USGS). The project was launched in late 2009, and the term "US Topo" refers specifically to quadrangle topographic maps published in 2009 and later.

USGS Geology

US GEOLOGY

Seamless maps depicting geological information provided by the United States Geological Survey (USGS).

USGS National Water Information System

FED USGS

The U.S. Geological Survey (USGS)'s National Water Information System (NWIS) is the nation's principal repository of water resources data. This database includes comprehensive information of well-construction details, time-series data for gage height, streamflow, groundwater level, and precipitation and water use data.

State Sources

Oil and Gas Wells

OGW

A list of active and plugged wells - including active and expired well permits provided by Department of

Appendix

Natural Resources, Oil & Gas Conservation Commission.

Public Water Wells

WATER WELLS

The statewide water wells data consists of water levels information for each well. The data was made available by Colorado Decision Supports System under the development and improvement by the Colorado Water Conservation Board (CWCB) and the Colorado Division of Water Resources (DWR). The well latitude and longitude information represents physical location of the wells.

Water Wells Permit Database

WATER WELLS

Water wells application and permit database maintained by the Colorado Department of Natural Resources' Division of Water Resources. This database includes statewide well applications and permits issued by the department.

APPENDIX E CREDENTIALS

DEREK A. BROWN, P.E.

SENIOR ENVIRONMENTAL ENGINEER/DEPARTMENT MANAGER

PROFESSIONAL EXPERIENCE

Mr. Brown currently serves as a Senior Engineer and Environmental Department Manager for the Fort Collins, Colorado office with over 21 years of engineering and environmental consulting experience. His primary responsibilities include overseeing field and office personnel, senior review of projects and documents, engineering evaluation and design, project management, and report preparation. Other duties also include management and technical oversight of remedial system operation and maintenance (O&M), preparation of site characterization reports (SCRs) and corrective action plans (CAPs), remediation design including preparation of construction specifications and drawings, review of environmental site investigation and remedial reports, soil and groundwater sampling/monitoring reporting, and other technical documents associated with environmental compliance and permitting.

PROJECT EXPERIENCE

Wyoming Department of Environmental Quality

Currently managing and performing environmental field work and project oversight and reporting for numerous active LUST site remediation systems throughout Wyoming. Remediation systems include groundwater extraction, enhanced bioremediation, ozone sparging, air sparging, soil vapor extraction, dual-phase vapor extraction, LNAPL removal and monitored natural attenuation. On-going projects include remediation systems and/or on-going site investigations/corrective actions in Park County, Cheyenne, Casper, Douglas, Glenrock, Green River, Greybull, Jeffrey City, Rawlins, Teton County, Southwest Wyoming, Worland and Yellowstone National Park. Mr. Brown performs engineering assessment and design of remedial technologies for the treatment of soil and groundwater, including the preparation of the Remedial Action Plans, specifications and plans for the design and construction of the remediation projects.

SPARC LUST Site Remediation – NDEQ

Assisting the Terracon Omaha office in the engineering assessment and design of remedial technologies for the treatment of soil and groundwater throughout Nebraska. Currently assisting with pilot testing, design of new remedial systems and O&M of existing systems. Recently, provided construction oversight for two new remediation systems, including system start-up and ongoing O&M of systems in western Nebraska for the NDEQ.

Garfield County LUST Remediation, Rifle, Colorado

Provided engineering design and bidding of a remediation system including SVE, AS and pneumatic free-product recovery. Provided by construction oversight and project management for the construction activities which included over-excavation, drilling, trenching and system installation. This site has since been closed with the State of Colorado OPS and decommissioning operations achieved. Currently in progress with the preparation of the final reimbursement applications to OPS for the clean-up program.

Education

Master of Science, Civil Engineering, 2000, Colorado State University

Bachelor of Science, Chemical Engineering, 1994, Clarkson University

Registrations

Professional Engineer, Colorado, 36653

Professional Engineer, Wyoming, 9974

Professional Engineer, Nebraska, E-15181

Certifications

40-Hour OSHA Environmental Health and Safety Supervisor and Hazardous Waste Operations Training

HAZWOPER 8-hour Annual Refresher Courses, 1994 to Present

Registered Consultant with the Colorado Department of Labor and Employment, #5777

Nuclear Density Gauge Safety Training

American Red Cross First Aid and CPR

Terracon Environmental Professional

Work History

Terracon Consultants, Inc., Fort Collins, Colorado, Senior Project Engineer and Manager, 1998-Present

Atlantic Testing Laboratories, Ltd., Environmental Engineer, 1994-1996

Colorado Department of Labor and Employment Oil and Public Safety (OPS), Loveland, Colorado

Prepared and implemented a work plan for further site characterization of a LUST site for OPS, to delineate the vertical and horizontal extent of groundwater contamination including petroleum fuels and chlorinated solvents. In addition, performed indoor air quality sampling to assess exposure pathways of contamination. Provided engineering design and bidding of a dual-phase extraction remediation system, with management of its operation and maintenance, and reporting.

Phase I and Limited Phase II ESAs, Colorado and Wyoming

Performed project activities for various Phase I ESA and Limited Phase II ESAs, including site reconnaissance, field coordination and oversight of drilling operations, collection of soil and groundwater samples for environmental analyses, and report preparation.

Colorado OPS ARRA Sites, Fort Collins, Colorado

Performed additional assessment of soil and groundwater, including installation of direct-push assessment points and groundwater monitoring wells, to assist the OPS in closing sites. Performed monitored natural attenuation and Tier 2 modeling to close the sites.

Oil & Gas

Mr. Brown has been the project manager and/or performed project oversight on several oil and gas-related projects in Colorado and Wyoming, assisting on environmental compliance services. Has managed the investigation of subsurface soil and groundwater at active oil and gas production facilities including preparation of detailed finding submittals to clients for regulatory compliance reporting.

Sanitary Sewer Pretreatment System, Frontier Refining Inc., Cheyenne, Wyoming

Design and installation of a turn-key pretreatment system associated with a sanitary sewer line at the Frontier Refining facility, to provide for the extraction and treatment of petroleum contaminated groundwater prior to entering the outfall to the City of Cheyenne sewer system. Provided for the engineering design, permitting, and construction oversight of subcontractors for the installation, system start-up, and management of the day-to-day operations of the pretreatment facility over an approximate 18-month period. Worked closely with the City of Cheyenne BOPU to negotiate a new permit and the design of treatment system and its operation. Prepared self-monitoring reports, on behalf of client, to the BOPU directly, to help meet the effluent discharge limits and keep client in compliance. In addition, permitted and reported on air quality emissions associated with the removal of volatile organic compounds associated with the waste stream being treated, including the design and installation of an off-gas granular activated carbon system for VOC removal.

Vapor Intrusion Assessment and Mitigation

Mr. Brown has assessed structures for vapor intrusion concerns due to volatile organic compounds. This includes conducting indoor, sub-slab, and subsurface vapor sampling. He has designed, installed, and operated vapor mitigation systems for buildings impacted with volatile organic compounds. Systems have been installed in basements, crawl spaces, and beneath slab on grade structures.

Soil and Groundwater Remediation

Mr. Brown is a member of Terracon's Senior Remediation Practitioner Resource Group. He has conducted remediation alternative evaluations for sites impacted with a variety of chemicals of concern. The evaluations include selecting the appropriate remedial technology based on a number of factors, including cleanup objectives, cost, and implementability. He has designed remediation systems using a variety of remediation technologies, including chemical oxidation/reduction, bioremediation, soil vapor extraction, vacuum enhanced pumping, air sparging, multi-phase (high vacuum) extraction, pump and treat, enhanced natural attenuation, and surfactant enhanced remediation. He has extensive environmental consulting experience in project management, assessments, engineering design, construction and O&M of site remediation facilities throughout Colorado, Wyoming and Nebraska.

JOHN C. GRAVES, P.G.

OFFICE MANAGER / PRINCIPAL

PROFESSIONAL EXPERIENCE

Mr. Graves has over 16 years of experience as a geologist and 13 years of experience performing environmental, geotechnical, and materials engineering services. Mr. Graves is responsible for the management of Terracon's offices in Fort Collins and Greeley, Colorado, including business development, resource allocation, and client services throughout northern Colorado and Wyoming. As an Environmental Geologist, Mr. Graves provides senior project management, technical review, and quality assurance for an array of environmental compliance services as well as assisting with the project management and completion of geotechnical and materials engineering projects.

Mr. Graves' primary experience includes the management of leaking underground storage tank (LUST) remedial sites, developing groundwater sampling programs, preparation of Phase I and II environmental site assessments, geotechnical investigations, construction materials testing oversight, managing subsurface soil and groundwater investigations, performing environmental risk assessments, environmental compliance services, geologic and hydrogeologic site characterization, and mineral assessments for potential conservation easements. Mr. Graves also has experience in solid waste engineering for solid waste landfill facilities. His solid waste engineering experience includes regulatory compliance, siting, permitting, geologic and hydrogeologic site characterization, environmental monitoring, and construction quality assurance. His experience includes lined cells; lateral expansions; and cell closure.

Mr. Graves opened and managed a new office for Terracon in Rock Springs, Wyoming in 2005. This allowed Mr. Graves the opportunity to perform and manage geotechnical subsurface exploration projects and to provide materials testing services for a variety of project types including airports, compressor stations, natural gas processing facilities, coal-fired power plants, school facilities, hotels, and many other types of projects.

PROJECT EXPERIENCE

Site Characterization and Remediation

Wyoming Department of Environmental Quality

Currently managing and performing environmental field work and project oversight and reporting for numerous active LUST site remediation systems. Remediation systems include groundwater extraction, enhanced bioremediation, ozone sparging, air sparging, soil vapor extraction and dual phase vapor extraction. On-going projects include remediation systems and/or on-going site investigations/corrective actions in Casper, Cody, Douglas, Glenrock, Green River, Greybull, Jeffrey City, Lusk, Meeteetse, Rawlins, Worland, and Yellowstone National Park. In addition, Mr. Graves is currently managing and/or providing oversight for three Voluntary Cleanup Program projects in Rawlins and Cheyenne.

Previous projects include remediation work being performed for the Indiana Department of Environmental Management, the Nebraska Department of Environmental Quality, and the Colorado Department of Labor and Employment.

Education

Creek Run Environmental Engineering L.L.C., Project Geologist, 2000-2001

Schlumberger - Geco-Prakla Division, Acquisition Engineer, 1997-2000

School Facilities

Mr. Graves has been the Project Manager for numerous environmental investigations, geotechnical explorations and has managed materials testing services at various school facilities. Recent examples include geotechnical investigations for a new parking lot and new classrooms at Front Range Community College in Fort Collins, Colorado; geotechnical investigations for student housing and expansion of the student center at Western Wyoming Community College in Rock Springs, Wyoming; environmental compliance services provided during construction for Moby Arena and the Behavioral Sciences Building at Colorado State University in Fort Collins; geotechnical investigations for new classrooms at Morgan Community College in Fort Morgan, Colorado; and environmental site assessments performed during the site selection stage for a new elementary school in Cheyenne, Wyoming for Laramie County School District Number One.

Landfill Facilities

Kemmerer Landfill, Lincoln County, Wyoming

Project Manager for landfill design and permit application project for a lateral and vertical expansion to the existing landfill. Client is Lincoln County Commissioner's Office. This project included preparation of a revised permit application, slope stability analysis, location standard assessment for lateral expansion of the landfill, design of the first engineered containment system (lined cell) at the facility, preparation of revised Environmental Monitoring Plan, and preparation of Construction Quality Assurance (CQA) Plan.

Cheley Camps Landfill, Estes Park, Colorado

Mr. Graves is the Project Manager for a landfill closure design for a private landfill under Colorado Department of Public Health and Environment rules and regulations. Completed services include the installation of groundwater monitoring network, a landfill gas monitoring network, the preparation of a Landfill Closure Plan including technical specifications and a slope stability analysis, and Construction Quality Assurance Plan. Mr. Graves also oversaw the implementation of the plan. The landfill was granted closure from the State in 2012 and Mr. Graves is currently performing long-term closure activities including groundwater sampling, vapor monitoring, and semi-annual visual inspection of the capped landfill and implemented stormwater control system.

Municipalities

Mr. Graves has been the project manager and/or performed project oversight on numerous environmental and geotechnical projects being performed for local municipalities. Recent example projects include environmental assessment services for a new park for the Berthoud Regional Recreation District in Berthoud, Colorado; environmental assessment services for a new office building for Teton County Weed & Pest in Jackson, Wyoming; numerous environmental and geotechnical investigations for the City of Loveland, Colorado; environmental assessment and compliance services for the procurement of new property for the Estes Park Sanitation District, and environmental compliance services for Larimer County Fleet Management.

Residential

Mr. Graves has been the project manager and/or performed project oversight on numerous geotechnical, environmental and materials testing projects being performed for new housing complexes in the past year, including multiple geotechnical investigations for off-campus student housing at Colorado State University and another environmental and geotechnical investigation for off-campus student housing at the University of Northern Colorado in Greeley. Another notable project is Legacy Senior Residences apartments in Fort Collins, Colorado. This project was proposed at a site within a known historic landfill utilized in the early 1900s by the original military fort. Mr. Graves coordinated a combined environmental and geotechnical field investigation for the property and assisted the owner with enrolling the site in the Colorado Voluntary Cleanup Program. To reduce the potential for environmental issues during construction, a helical pier foundation system was recommended and installed with Terracon oversight. In addition, Terracon designed a vapor mitigation system for the proposed structure, as well as the preparation and implementation of a soils management plan to deal with asbestos-contaminated soil uncovered during construction.

APPENDIX F
DESCRIPTION OF TERMS AND ACRONYMS

Description of Selected General Terms and Acronyms

Term/Acronym	Description
ACM	<p>Asbestos Containing Material. Asbestos is a naturally occurring mineral, three varieties of which (chrysotile, amosite, crocidolite) have been commonly used as fireproofing or binding agents in construction materials. Exposure to asbestos, as well as ACM, has been documented to cause lung diseases including asbestosis (scarring of the lung), lung cancer and mesothelioma (a cancer of the lung lining).</p> <p>Regulatory agencies have generally defined ACM as a material containing greater than one (1) percent asbestos, however some states (e.g. California) define ACM as materials having 0.1% asbestos. In order to define a homogenous material as non-ACM, a minimum number of samples must be collected from the material dependent upon its type and quantity. Homogenous materials defined as non-ACM must either have 1) no asbestos identified in all of its samples or 2) an identified asbestos concentration below the appropriate regulatory threshold. Asbestos concentrations are generally determined using polarized light microscopy or transmission electron microscopy. Point counting is an analytical method to statistically quantify the percentage of asbestos in a sample. The asbestos component of ACM may either be friable or non-friable. Friable materials, when dry, can be crumbled, pulverized, or reduced to powder by hand pressure and have a higher potential for a fiber release than non-friable ACM. Non-friable ACM are materials that are firmly bound in a matrix by plastic, cement, etc. and, if handled carefully, will not become friable.</p> <p>Federal and state regulations require that either all suspect building materials be presumed ACM or that an asbestos survey be performed prior to renovation, dismantling, demolition, or other activities that may disturb potential ACM. Notifications are required prior to demolition and/or renovation activities that may impact the condition of ACM in a building. ACM removal may be required if the ACM is likely to be disturbed or damaged during the demolition or renovation. Abatement of friable or potentially friable ACM must be performed by a licensed abatement contractor in accordance with state rules and NESHAP. Additionally, OSHA regulations for work classification, worker training and worker protection will apply.</p>
AHERA	Asbestos Hazard Emergency Response Act
AST	Aboveground Storage Tanks. ASTs are generally described as storage tanks less than 10% of which are below ground (i.e., buried). Tanks located in a basement, but not buried, are also considered ASTs. Whether, and the extent to which, an AST is regulated, is determined on a case-by-case basis and depends upon tank size, its contents and the jurisdiction of its location.
BGS	Below Ground Surface
Brownfields	State and/or tribal listing of Brownfield properties addressed by Cooperative Agreement Recipients or Targeted Brownfields Assessments.
BTEX	Benzene, Toluene, Ethylbenzene, and Xylenes. BTEX are VOC components found in gasoline and commonly used as analytical indicators of a petroleum hydrocarbon release.
CERCLA	Comprehensive Environmental Response, Compensation and Liability Act (a.k.a. Superfund). CERCLA is the federal act that regulates abandoned or uncontrolled hazardous waste sites. Under this Act, joint and several liability may be imposed on potentially responsible parties for cleanup-related costs.
CERCLIS	Comprehensive Environmental Response, Compensation and Liability Information System. An EPA compilation of sites having suspected or actual releases of hazardous substances to the environment. CERCLIS also contains information on site inspections, preliminary assessments and remediation of hazardous waste sites. These sites are typically reported to EPA by states and municipalities or by third parties pursuant to CERCLA Section 103.
CESQG	Conditionally Exempt Small Quantity Generators
CFR	Code of Federal Regulations

Description of Selected General Terms and Acronyms

Term/Acronym	Description
CREC	Controlled Recognized Environmental Condition is defined in ASTM E1527-13 as “a recognized environmental condition resulting from a past release of hazardous substances or petroleum products that has been addressed to the satisfaction of the applicable regulatory authority (for example, as evidenced by the issuance of a no further action letter or equivalent, or meeting risk-based criteria established by regulatory authority) , with hazardous substances or petroleum products allowed to remain in place subject to the implementation of required controls (for example, property use restrictions, activity and use limitations, institutional controls, or engineering controls). A condition considered by the environmental professional to be a controlled recognized environmental condition shall be listed in the findings section of the Phase I Environmental Site Assessment report, and as a recognized environmental condition in the conclusions section of the Phase I Environmental Site Assessment report.”
DOT	U.S. Department of Transportation
EPA	U.S. Environmental Protection Agency
ERNS	Emergency Response Notification System. An EPA-maintained federal database which stores information on notifications of oil discharges and hazardous substance releases in quantities greater than the applicable reportable quantity under CERCLA. ERNS is a cooperative data-sharing effort between EPA, DOT, and the National Response Center.
ESA	Environmental Site Assessment
FRP	Fiberglass Reinforced Plastic
Hazardous Substance	As defined under CERCLA, this is (A) any substance designated pursuant to section 1321(b)(2)(A) of Title 33, (B) any element, compound, mixture, solution, or substance designated pursuant to section 9602 of this title; (C) any hazardous waste having characteristics identified under or listed pursuant to section 3001 of the Solid Waste Disposal Act (with some exclusions); (D) any toxic pollutant listed under section 1317(a) of Title 33; (E) any hazardous air pollutant listed under section 112 of the Clean Air Act; and (F) any imminently hazardous chemical substance or mixture with respect to which the EPA Administrator has taken action under section 2606 of Title 15. This term does not include petroleum, including crude oil or any fraction thereof which is not otherwise listed as a hazardous substance under subparagraphs (A) through (F) above, and the term include natural gas, or synthetic gas usable for fuel (or mixtures of natural gas and such synthetic gas).
Hazardous Waste	This is defined as having characteristics identified or listed under section 3001 of the Solid Waste Disposal Act (with some exceptions). RCRA, as amended by the Solid Waste Disposal Act of 1980, defines this term as a “solid waste, or combination of solid wastes, which because of its quantity, concentration, or physical, chemical, or infectious characteristics may (A) cause, or significantly contribute to an increase in mortality or an increase in serious irreversible, or incapacitating reversible illness; or (B) pose a substantial present or potential hazard to human health or the environment when improperly treated, stored, transported, or disposed of, or otherwise managed.”
HREC	Historical Recognized Environmental Condition is defined in ASTM E1527-13 as “a past release of any hazardous substances or petroleum products that has occurred in connection with the property and has been addressed to the satisfaction of the applicable regulatory authority or meeting unrestricted residential use criteria established by a regulatory authority, without subjecting the property to any required controls (for example, property use restrictions, activity and use limitations, institutional controls, or engineering controls). Before calling the past release a historical recognized environmental condition, the environmental professional must determine whether the past release is a recognized environmental condition at the time of the Phase I Environmental Site Assessment is conducted (for example, if there has been a change in the regulatory criteria). If the EP considers the past release to be a recognized environmental condition at the time the Phase I ESA is conducted, the condition shall be included in the conclusions section of the report as a recognized environmental condition.”
IC/EC	A listing of sites with institutional and/or engineering controls in place. IC include administrative measures, such as groundwater use restrictions, construction restrictions, property use restrictions, and post remediation care requirements intended to prevent exposure to contaminants remaining on site. Deed restrictions are generally required as part of the institutional controls. EC include various forms of caps, building foundations, liners, and treatment methods to create pathway elimination for regulated substances to enter environmental media or effect human health.
ILP	Innocent Landowner/Operator Program
LQG	Large Quantity Generators
LUST	Leaking Underground Storage Tank. This is a federal term set forth under RCRA for leaking USTs. Some states also utilize this term.

Description of Selected General Terms and Acronyms

Term/Acronym	Description
MCL	Maximum Contaminant Level. This Safe Drinking Water concept (and also used by many states as a ground water cleanup criteria) refers to the limit on drinking water contamination that determines whether a supplier can deliver water from a specific source without treatment.
MSDS	Material Safety Data Sheets. Written/printed forms prepared by chemical manufacturers, importers and employers which identify the physical and chemical traits of hazardous chemicals under OSHA's Hazard Communication Standard.
NESHAP	National Emissions Standard for Hazardous Air Pollutants (Federal Clean Air Act). This part of the Clean Air Act regulates emissions of hazardous air pollutants.
NFRAP	Facilities where there is "No Further Remedial Action Planned," as more particularly described under the Records Review section of this report.
NOV	Notice of Violation. A notice of violation or similar citation issued to an entity, company or individual by a state or federal regulatory body indicating a violation of applicable rule or regulations has been identified.
NPDES	National Pollutant Discharge Elimination System (Clean Water Act). The federal permit system for discharges of polluted water.
NPL	The NPL is the EPA's database of uncontrolled or abandoned hazardous waste facilities that have been listed for priority remedial actions under the Superfund Program.
OSHA	Occupational Safety and Health Administration or Occupational Safety and Health Act
PACM	Presumed Asbestos-Containing Material. A material that is suspected of containing or presumed to contain asbestos but which has not been analyzed to confirm the presence or absence of asbestos.
PCB	Polychlorinated Biphenyl. A halogenated organic compound commonly in the form of a viscous liquid or resin, a flowing yellow oil, or a waxy solid. This compound was historically used as dielectric fluid in electrical equipment (such as electrical transformers and capacitors, electrical ballasts, hydraulic and heat transfer fluids), and for numerous heat and fire sensitive applications. PCB was preferred due to its durability, stability (even at high temperatures), good chemical resistance, low volatility, flammability, and conductivity. PCBs, however, do not break down in the environment and are classified by the EPA as a suspected carcinogen. 1978 regulations, under the Toxic Substances Control Act, prohibit manufacturing of PCB-containing equipment; however, some of this equipment may still be in use today.
pCi/L	picoCuries per Liter of Air. Unit of measurement for Radon and similar radioactive materials.
PLM	Polarized Light Microscopy (see ACM section of the report, if included in the scope of services)
PST	Petroleum Storage Tank. An AST or UST that contains a petroleum product.
Radon	A radioactive gas resulting from radioactive decay of naturally-occurring radioactive materials in rocks and soils containing uranium, granite, shale, phosphate, and pitchblende. Radon concentrations are measured in picoCuries per Liter of Air. Exposure to elevated levels of radon creates a risk of lung cancer; this risk generally increases as the level of radon and the duration of exposure increases. Outdoors, radon is diluted to such low concentrations that it usually does not present a health concern. However, radon can accumulate in building basements or similar enclosed spaces to levels that can pose a risk to human health. Indoor radon concentrations depend primarily upon the building's construction, design and the concentration of radon in the underlying soil and ground water. The EPA recommended annual average indoor "action level" concentration for residential structures is 4.0 pCi/l.
RCRA	Resource Conservation and Recovery Act. Federal act regulating solid and hazardous wastes from point of generation to time of disposal ("cradle to grave"). 42 U.S.C. 6901 et seq.
RCRA Generators	The RCRA Generators database, maintained by the EPA, lists facilities that generate hazardous waste as part of their normal business practices. Generators are listed as either large (LQG), small (SQG), or conditionally exempt (CESQG). LQG produce at least 1000 kg/month of non-acutely hazardous waste or 1 kg/month of acutely hazardous waste. SQG produce 100-1000 kg/month of non-acutely hazardous waste. CESQG are those that generate less than 100 kg/month of non-acutely hazardous waste.
RCRA CORRACTS/TS Ds	The USEPA maintains a database of RCRA facilities associated with treatment, storage, and disposal (TSD) of hazardous materials which are undergoing "corrective action". A "corrective action" order is issued when there is a release of hazardous waste or constituents into the environment from a RCRA facility.
RCRA Non-CORRACTS/TS Ds	The RCRA Non-CORRACTS/TSD Database is a compilation by the USEPA of facilities which report storage, transportation, treatment, or disposal of hazardous waste. Unlike the RCRA CORRACTS/TSD database, the RCRA Non-CORRACTS/TSD database does not include RCRA facilities where corrective action is required.

Description of Selected General Terms and Acronyms

Term/Acronym	Description
RCRA Violators List	RAATS. RCRA Administrative Actions Taken. RAATS information is now contained in the RCRIS database and includes records of administrative enforcement actions against facilities for noncompliance.
RCRIS	Resource Conservation and Recovery Information System, as defined in the Records Review section of this report.
REC	Recognized Environmental Conditions are defined by ASTM E1527-13 as “the presence or likely presence of any hazardous substances or petroleum products in, on, or at a property: 1) due to any release to the environment; 2) under conditions indicative of a release to the environment. <i>De minimis</i> conditions are not recognized environmental conditions.”
SCL	State “CERCLIS” List (see SPL /State Priority List, below).
SPCC	Spill Prevention, Control and Countermeasures. SPCC plans are required under federal law (Clean Water Act and Oil Pollution Act) for any facility storing petroleum in tanks and/or containers of 55-gallons or more that when taken in aggregate exceed 1,320 gallons. SPCC plans are also required for facilities with underground petroleum storage tanks with capacities of over 42,000 gallons. Many states have similar spill prevention programs, which may have additional requirements.
SPL	State Priority List. State list of confirmed sites having contamination in which the state is actively involved in clean up activities or is actively pursuing potentially responsible parties for clean up. Sometimes referred to as a State “CERCLIS” List.
SQG	Small Quantity Generator
SWF/LF	State and/or Tribal database of Solid Waste/Landfill facilities. The database information may include the facility name, class, operation type, area, estimated operational life, and owner.
TPH	Total Petroleum Hydrocarbons
TRI	Toxic Release Inventory. Routine EPA report on releases of toxic chemicals to the environment based upon information submitted by entities subject to reporting under the Emergency Planning and Community Right to Know Act.
TSCA	Toxic Substances Control Act. A federal law regulating manufacture, import, processing and distribution of chemical substances not specifically regulated by other federal laws (such as asbestos, PCBs, lead-based paint and radon). 15 U.S.C 2601 et seq.
USACE	United States Army Corps of Engineers
USC	United States Code
USGS	United States Geological Survey
USNRCS	United States Department of Agriculture-Natural Resource Conservation Service
UST	Underground Storage Tank. Most federal and state regulations, as well as ASTM E1527-13, define this as any tank, incl., underground piping connected to the tank, that is or has been used to contain hazardous substances or petroleum products and the volume of which is 10% or more beneath the surface of the ground (i.e., buried).
VCP	State and/or Tribal facilities included as Voluntary Cleanup Program sites.
VOC	Volatile Organic Compound

Description of Selected General Terms and Acronyms

Term/Acronym	Description
Wetlands	<p>Areas that are typically saturated with surface or ground water that creates an environment supportive of wetland vegetation (i.e., swamps, marshes, bogs). The <u>Corps of Engineers Wetlands Delineation Manual</u> (Technical Report Y-87-1) defines wetlands as areas inundated or saturated by surface or ground water at a frequency and duration sufficient to support, and that under normal circumstances do support, a prevalence of vegetation typically adapted for life in saturated soil conditions. For an area to be considered a jurisdictional wetland, it must meet the following criteria: more than 50 percent of the dominant plant species must be categorized as Obligate, Facultative Wetland, or Facultative on lists of plant species that occur in wetlands; the soil must be hydric; and, wetland hydrology must be present.</p> <p>The federal Clean Water Act which regulates “waters of the US,” also regulates wetlands, a program jointly administered by the USACE and the EPA. Waters of the U.S. are defined as: (1) waters used in interstate or foreign commerce, including all waters subject to the ebb and flow of tides; (2) all interstate waters including interstate wetlands; (3) all other waters such as intrastate lakes, rivers, streams (including intermittent streams), mudflats, sandflats, wetlands, sloughs, prairie potholes, wet meadows, playa lakes, or natural ponds, etc., which the use, degradation, or destruction could affect interstate/ foreign commerce; (4) all impoundments of waters otherwise defined as waters of the U. S., (5) tributaries of waters identified in 1 through 4 above; (6) the territorial seas; and (7) wetlands adjacent to waters identified in 1 through 6 above. Only the USACE has the authority to make a final wetlands jurisdictional determination.</p>
