This item approves the second reading of the appropriation ordinance for \$100,000 in funding for year two of #LiveLoveland's campaign and also approves the grant agreement authorizing payment to Loveland Strategic Partnership. This initiative grew out of the Loveland Strategic Partnership (LSP), a non-profit made up of many different segments of the community from government to non-profit, education, arts, business, faith and quality of life with a special focus on youth. #LiveLoveland was created to engage citizens in their community and highlight community pride through a variety of tactics. #LiveLoveland's current year budget is \$200,000 and financials are provided from 2017- 2019. This group plans to continue ongoing fundraising to reach eventual sustainability. While businesses, non-profits, and other external entities may request funding through the Community Request for Assistance process, due to the timing, need, and dollar amount requested, staff recommended this request be brought forward as a standalone item.

**AN ORDINANCE VACATING A PORTION OF 37th STREET RIGHT-OF-WAY  
WITHIN THE MILLENNIUM NORTHWEST THIRD SUBDIVISION, CITY  
OF LOVELAND, COUNTY OF LARIMER, STATE OF COLORADO**

If approved, this item will vacate the 37th Street right-of-way, an existing east-west street, to then construct an extension of Kendall Parkway nearby. The removal of 37th Street and the extension of Kendall Parkway essentially functions as a realignment of 37th Street, but with the Kendall Parkway name assigned to the realigned right-of-way. Kendall Parkway, which is an existing street situated east of Rocky Mountain Avenue, is in the process of being extended westward in the vicinity of the existing 37th Street. This extension was planned many years ago, with portions of the right-of-way for the Kendall Parkway extension platted in conjunction with earlier area subdivisions. The vacation of the 37th Street right-of-way, in conjunction with the dedication of the additional needed Kendall Parkway right-of-way, will allow for the extension and construction of the remainder of Kendall Parkway.

Planning Commission voted 8-0 at the March 25, 2019 meeting to recommend this action to City Council. At the hearing, staff explained the purpose of the request and the applicant answered a couple questions from Commissioners, no members of the public spoke.

**AN ORDINANCE APPROVING A FOURTH AMENDMENT TO THE GENERAL  
DEVELOPMENT PLAN FOR THE WINTERGREEN PUD LOCATED IN THE  
WINTERGREEN ADDITION, CITY OF LOVELAND, COUNTY OF LARIMER, STATE  
OF COLORADO**

LOVELAND CITY COUNCIL MEETING  
April 16, 2019

This application is an amendment to the Wintergreen General Development Plan (GDP) to increase the density and number of residential units on Parcel E. This GDP is located at the southwest side of the intersection of W. 65th Street and Highway 287- bordered generally by Highway 287 to the east, the Copper Ridge PUD (under development) to the west, the Longview Business Park to the north, and the Cherry Village mobile park to the south. The eastern portion of Wintergreen consists of a Walmart-anchored shopping plaza.

The existing GDP caps the residential density on the parcel at 9.6 units per acre and a maximum of 111 units. The applicant is proposing to develop a multifamily apartment project at a density of 17.6 units per acre with a maximum of 168 units. In conjunction with the change to the maximum density/number of units, the amendment to the GDP: 1) adds more detailed multifamily residential design standards. 2) updates other text and diagrams in the GDP to specifically address Parcel E. Staff presented this item to Planning Commission at the March 25, 2019 meeting, where the Commission voted 8-0 to recommend approval of the amendment. Staff explained the purpose of the GDP amendment, followed by the applicant explaining more specific details about the proposed buildings and site design that would be pursued if the GDP amendment is approved. Commissioners inquired about the anticipated demand and anticipated pricing of the apartments. A member of the public spoke about traffic increases that would accompany the proposed development, particularly as relates to vehicle turning movements onto Highway 287 (Garfield Avenue). These issues were addressed to the satisfaction of the Commission.

*A Motion To Adopt, On First Reading, An Ordinance Approving A Fourth Amendment To The General Development Plan For The Wintergreen PUD Located In The Wintergreen Addition, City Of Loveland, County Of Larimer, State Of Colorado*

**3.7 WATER & POWER  
PUBLIC COMMENT  
AN ORDINANCE AMENDING SECTION 13.04.205 OF THE LOVELAND MUNICIPAL CODE**

This item is to make updates to the Loveland Municipal Code so that the Code will be consistent with changes made to the Water and Power Schedule of Rates, Charges and Fees that were adopted by City Council on second reading on November 6, 2018, and went into effect on January 1, 2019. This item is to make changes to the municipal code and is a housekeeping item associated with last year's rate study for Water and Wastewater.

For the Fire Hydrant Fee, a monthly charge of \$3.00 per residence and \$7.30 per business was being paid by customers outside the city who were located within 1,000 feet of a City fire hydrant. In investigating the billing of these fees, staff discovered some administrative difficulties in how customers were being flagged to be charged the fee. This fee has been in place since the 1980's, but staff was unable to determine what costs

LOVELAND CITY COUNCIL MEETING  
April 16, 2019

the fee is specifically supposed to be covering. For these reasons and other administrative challenges this fee presented, this fee was eliminated from the 2019 Schedule of Rates, Charges, and Fees. The fee generated a total of \$21,000 in revenue in 2017.

For the Fire Protection Tap Fee, a \$7.30 fee per month per tap for each fire protection tap serving premises outside the city. In checking with Utility Billing, they were not able to find any customers that are currently being billed for this fee. This fee was also initiated in the 1980's, and, again, staff was unable to determine what costs the fee is specifically supposed to be covering. For these reasons, this fee was also eliminated starting in 2019. In order for the municipal code to be consistent with the elimination of these fees, the proposed revisions to Section 13.04.205 are shown in Attachment 1.

*A Motion To Adopt, On First Reading, An Ordinance Amending Section 13.04.205 Of The Loveland Municipal Code*

CARRIED.

**3.8 WATER & POWER**

**PUBLIC COMMENT**

**AN ORDINANCE AMENDING SECTION 13.08.101 OF THE LOVELAND MUNICIPAL CODE**

This item would remove the citation of the specific normal strength wastewater levels for Biochemical Oxygen Demand (BOD) and Total Suspended Solids (TSS) from the municipal code and instead have the normal strength levels referred to in the annual City Council resolution that establishes the Water and Power Schedule of Rates, Charges and Fees. This item is meant to make the process of updating the normal strength wastewater levels for BOD and TSS be accomplished according to the same process that is used for revising any rates, charges and fees for Water and Power, namely the annual City Council resolution that establishes the Water and Power Schedule of Rates, Charges, and Fees for the coming year. Time will be saved for both City Council and staff by requiring just one City Council action to change the normal strength wastewater levels for BOD and TSS instead of requiring two actions.

*A Motion To Adopt, On First Reading, An Ordinance Amending Section 13.08.101 Of The Loveland Municipal Code*

**3.9 PARKS AND RECREATION**

**A RESOLUTION APPROVING AN INTERGOVERNMENTAL AGREEMENT WITH THE LARIMER COUNTY WEED DISTRICT FOR VEGETATION MANAGEMENT SERVICES**

## LOVELAND CITY COUNCIL MEETING

April 16, 2019

The City seeks to enter into a cooperative and mutually beneficial agreement with the Larimer County Weed District for necessary vegetation management services. The Larimer County Weed District possesses the most advantageous pricing, equipment, and expertise currently known to the City. The proposed resolution will permit the City, through the City Manager, to execute an Intergovernmental Agreement (IGA) for vegetation management services. The proposed resolution will permit the City, through the City Manager, to execute an Intergovernmental Agreement (IGA) for vegetation management services. The impact of this item will be advantageous price to the taxpayers regarding the necessary vegetation management services, and a formalized approach to invoicing for vegetation management services and a formal contractual relationship between the City and the Larimer County Weed District. The City has historically contracted with the Larimer County Weed District (District) on a case-by-case basis for vegetation management services. The proposed resolution would permit the City to execute an agreement with the District such that the relationship between the District and the City would become formalized with clear rights and obligations expressed in writing. The District is a Division of the Larimer County Natural Resources Department and is advised by the Larimer County Land Stewardship Advisory Board.

### 3.10 WATER & POWER

#### **RESOLUTION APPROVING THE FORM OF A MASTER LICENSE AGREEMENT FOR SMALL CELL FACILITIES IN THE RIGHT-OF-WAY**

In February 2017 the State of Colorado signed into law House Bill 17-1193, changing the requirements for attachment of small cell facilities on utility poles and streetlights. Then, in September 2018, the Federal Communication Commission (FCC) adopted the Accelerating Wireline Broadband Deployment by Removing Barriers to Infrastructure Investment, Declaratory Ruling and Third Report and Order, WT Docket No. 17-79; WC Docket No. 17-84 ("Order").

Following these, the city has been working to modify the application process, create design standards, and publish fees to accommodate for small cell wireless attachments. Based on standard practices of other municipalities and the advice of outside counsel, a Master License Agreement (MLA) between the City and the wireless facility providers is one step that will enable the City to ensure, to the maximum extent possible, the safe deployment of these facilities in the rights-of-way. The purpose of this item is to approve a resolution to adopt the MLA (Exhibit 1 to the Resolution), which includes the Wireless Communications Facilities Development Standards (Exhibit A to the MLA) and the Licensee's Minimum Limits of Insurance (Exhibit B to the MLA).

Per the Loveland City Charter, a meeting may be recessed into an executive session by the affirmative vote of two-thirds (2/3) of the members of City Council present to consider the acquisition or disposal of property if, in the judgement of City Council, premature disclosure of the information might give any person an unfair competitive or bargaining advantage.

### 7.2 LOVELAND POLICE DEPARTMENT PUBLIC COMMENT AN ORDINANCE EXPANDING THE DEFINITION OF TOBACCO PRODUCTS TO INCLUDE ELECTRONIC SMOKING DEVICES AND PRODUCTS CONTAINING NICOTINE REGARDING MINORS

Sargent Rabson presented this item noting the purpose is to provide clarity in the municipal code regarding a juvenile defendant's culpability for using or possessing electronic smoking devices and associated accessories containing nicotine. In addition, approval of the ordinance would provide retailers of "tobacco products", electronic smoking devices, and associated accessories containing nicotine to have clear guidance regarding what is unlawful to sell to a minor in Loveland. The proposed ordinance would provide the Loveland Police Department and the Loveland City Attorney's office with unambiguous
