### ITEM 5.1 OPEN LANDS & TRAILS STRATEGIC PLAN UPDATE

Each year the Commission has an opportunity to work with staff to review the Loveland Open Lands & Trails Strategic Plan. The Plan reflects the City's dedication to open lands and trails and our commitment to meeting citizen expectations. The Plan sets forth our five strategic focus areas to meet the growing expectations of the Loveland community with regards to open lands and trails.

Open Lands & Trails Strategic Focus Areas:

- Conservation
- Education
- Stewardship
- Recreation
- Health and Wellness

This Plan outlines Strategies, Priorities, and Key Initiatives within each Focus Area that are most critical for the Open Lands & Trails Division to support our Mission, and the Vision and Missions of the City and Parks & Recreation Department. This Divisional Strategic Plan helps prioritize our resources, ensuring Loveland remains "a vibrant community, surrounded by natural beauty, where you belong!"

Commission members are asked to review the draft OL& Trails Strategic Plan and provide additions, revisions or other suggestions to help staff strategize on Focus Areas and stay true to our mission through partnerships, collaboration, and community engagement.

**Commission Action Recommended:** Commission Discussion
