### **Q1 How does the project meet at least one of the CDBG program goals.**

All activities funded with City of Loveland grant dollars must meet at least one of the goals listed below. Describe how applicant project will meet one of the goals and identify which goal will be addressed. CDBG Goals:

*Character Limit: 2000*

## *Application: Project Information*

---

### **Q2 Describe the need for the project and how the grant will address the need.**

#### **Enter Need Assessment:**

**A. If housing:** How many units will be purchased, constructed or rehabilitated for each income level? Will the housing be for home ownership or rental? Will services be provided to assist individuals and help them remain in their house?

**B. If a public facility:** Will property be purchased, constructed, rehabilitated or rented? Will services be provided to help individuals and households increase their income and move toward self-reliance and independence?

Include the population expected to benefit from the project. Why does this person or group need this project? Do you have data to support the need? How will a grant from the City provide a solution to the problem? Tie this information to the CDBG goal that will be met.

- A. **If the project is housing related**, enter a number for each income level of housing unit purchased, constructed or rehabilitated. How will it be affordable long term for the targeted population?
- B. **If the project is for a public facility**, discuss the income level of the population that will be served at this location. What are the major functions of the facility? Indicate the number of persons who will benefit from your proposed project according to income categories. Is income verification necessary to receive services from your agency? Describe how and when your agency verifies the income of the client benefitting from the project. Can you show that at least 51% of your clients fall at or below 80% of the area median income, including counting clients who do not provide financial information? Example: You serve 1,000 clients a year at your agency. If 500 provide income information and 95% of those are at or below 80% of the area median income, you are only able to show that 47.5% of your total clients are at or below 80% of the AMI:  $(500 \times .95 = 475; 475/1,000 = 47.5\%)$ .

**Q3 Describe your experience providing services to households with very low and low to moderate income.\***

Give a brief narrative of your agency's experience serving very low to moderate income households.

*Character Limit: 2000*

**Q4 How many people or households will benefit from the project?\***

*Character Limit: 100*

**Q5 Describe your marketing efforts to reach people who are historically the least likely to apply to your program.\***

How do you market your services to historically underserved populations? Give an example. Do you market your services differently to minority populations? Include the effort your agency makes in reaching minorities and people with disabilities. Compare the demographic make-up of the population your agency serves with the demographic make-up of Larimer County (or northern Colorado).

*Character Limit: 2000*

**Q6 Describe your agency's capacity and experience managing a CDBG or other Federal contract.\***

Give a brief narrative of your agency's experience and capacity managing a CDBG contract. Has your agency ever received CDBG funding? Do you have a staff member who understands the reporting requirements? Have previously funded projects been completed and spent in full and on time? Have you submitted paperwork timely in the past, including drawdowns and final reports? (Please note that technical assistance is available if your agency does not have adequate experience.)

*Character Limit: 2000*

**Q7 What is the address and legal description of the property?**

***Skip this question: If project is for single-family dwellings to be rehabilitated with or without a loan program or for housing down payment assistance.***

Does your organization own the property or have site control? Is the property under contract or lease? If not, explain.

List the address and legal description, if available. If the property is not owned, is the property under contract or option for purchase? If the property is not owned and not under contract, how will your

organization secure site control? When will the property come under ownership? When would you expect to break ground or start rehabilitation?

**If the project is the purchase of a public facility**, will another location be sold to help pay for the new location? Has any CDBG funding been used for the location that will be sold?

**If the property is being rehabilitated**, be aware of **LEAD HAZARD REDUCTION REQUIREMENTS**.

Construction before 1978 requires Lead Hazard Remediation Actions:

- Lead Safe Work Practices (24 CFR 35.930(b)) (Hard costs <= \$5,000)
- Interim Controls or Standard Practices (24 CFR 35.930(c)) (Hard costs \$5,000 - \$25,000)

*Character Limit: 2000*

**Q9 What is the financial structure of the project?\***

***Skip this question: If the project is for single-family rehabilitation.***

Is there any financial restructuring anticipated by your organization to address financing shortfalls, debt restricting or working capital in the next year? If yes, explain.

Based on your most recent audit, were there any outcomes or findings that changed the way business is conducted? If yes, explain. Cite any examples from the audit that helped improve the organization's performance.

*Character Limit: 2000*

Are board members allowed to do business with/for the agency? Is self-dealing prohibited or are there exceptions? What are the exceptions?

*Character Limit: 2000*

**Q14 Project development budget and narrative.\***

***Skip this question: If project is for single-family dwellings to be rehabilitated with or without a loan program or for housing down payment assistance.***

Provide a narrative addressing the development costs and revenue sources over the next year and long term. Is the project development budget complete? Where is the project in the process of actual cost and development?

The Budget Narrative ideally expands on line items, explaining how dollar amounts were calculated and giving enough detail to tie the costs to the project's activities described above. When costs seem unusually high or low, the budget narrative can provide the needed explanation. As with the entire proposal, budget narratives should be clear and forthright.

## 2022 COMMUNITY DEVELOPMENT BLOCK GRANT APPEAL PROCESS

The City's Community Partnership Office and the Affordable Housing Commission strive to hold a fair and balanced process for all grant applicants. Steps taken to ensure this include:

- **Pre-Application** – The Community Partnership Office (CPO) will determine the eligibility of a project according to the information given on the pre-application and will ask for clarification if necessary.
- **Grant Proposal Guide** – Applicants receive a thorough, question-by-question guide to assist in completing proposals. Additionally, CPO staff are available for technical assistance.
- **Grant Presentation** – Commissioners review proposed projects with applicants and ask questions to gather more information as needed.
- **Scoring** – The scoring tool is shared with applicants at the beginning of the process. Commissioners score each applicant individually, and staff compiles Commissioner's scores into one composite score for each applicant. The Affordable Housing Commission considers factors other than scores when making funding decisions.
- **Scoring reports** – Each applicant receives a scoring report after the process that shows the applicant's total score, the high and low score, and an applicant-specific scoring tool with Commissioner averaged totals for each category.

Suppose an applicant wishes to appeal the funding recommendations of the Affordable Housing Commission. In that case, an appeal may be made by submitting a written letter citing the reason for request within five business days of receiving the applicant's scoring report and emailed to:

[Alison.Hade@cityofloveland.org](mailto:Alison.Hade@cityofloveland.org)

Staff will forward the appeal to the Affordable Housing Commission and the City Council before the day funding recommendations are presented to City Council.

Any decision regarding the outcome of the appeal rests with the City Council. Applicants will be notified regarding the decision as directed by City Council.
