

AUTHORIZATION FORM • WATER METER SET REQUESTS

Prior to setting any new residential or commercial water meter within the city limits, the City of Loveland Utilities Department must have on file a signed authorization form from the Contractor requesting the water meter set. Please contact Water Metering for questions or concerns regarding this form at 970-962-3721.

INDEMNIFICATION OF CITY OF LOVELAND BY CONTRACTOR

I hereby release and indemnify the City of Loveland, its officials, employees, and agents from any and all liability claims, costs, and expenses for personal or bodily injury or damage to property resulting from the turn on of water at any premises authorized by me or any employee listed above. I understand that I am solely responsible for myself and my employees listed above.

(Owner, President, Managing Member, etc.)

Date Signed

EFFECTIVE MARCH 1, 2021

**City of Loveland Utilities - Water Metering will begin
assessing return trip fees as follows:**

- Scheduled water meter sets that **do not** result in a meter "set" due to Contractor's failure to adhere to requirements.
- Scheduled final water meter inspections that **do not** result in an approved status AFTER the second failed inspection.

Return trip fees will be assessed on all active permits regardless of issuance date. Once assessed, these fees are required to be paid before any other inspection may be called on the building permit.

The 2026 return trip fee is \$110. This fee is subject to change. For current fees, please reference the City of Loveland Utilities Department Schedule of Rates, Charges, and Fees, available on-line.

Important Note: The City of Loveland Water Metering Group will not set a water meter unless water to the building may be activated. When requesting a water meter set, the caller must state that the valve inside the building is off and the system is ready for water to be turned on. *(Please be aware of weather conditions when scheduling a water meter set; for instance, is there heat in the building to avoid freezing pipes?)* Water Metering employees are not authorized to inspect or otherwise check plumbing on the inside of a building. Jumpers are not allowed to be installed in pits.
